

## POLISHED PATTERNS

This modern master bath makes expert use of shapes and patterns. Bright, off-white cabinetry and wall paint lay a clean foundation for the room's accents to shine, while pops of warmth, such as a decorative stool and woven shades, nurture a welcoming feel. The walk-in shower features an expanse of marbled tile and glass panes that open up the room and look out over a luxurious free-standing tub. The shower's penny tile floor matches the sleek black countertop of the vanity and adds contrast to the room's largely light scheme. Geometric shapes abound, from the globes of a whimsical light fixture to a subtly marbled hexagonal tile floor, and elevate the design with bold but clean lines. A large picture window

rounds out the fresh and airy feel of this bath, letting in natural light that reflects off its pristine surfaces.
