❒ Influenza injectable ❒ Influenza nasal ❒ Pneumococcal
❒ Meningococcal ❒ Hepatitis A ❒ Hepatitis b
❒ Hepatitis A & B ❒ HPV ❒ Polio
❒ Varicella (Chickenpox) ❒ Zoster (Shingles) ❒ Tetanus (Td)
❒ Whooping Cough (Tdap, DTaP) ❒ Measles Mumps & Rubella (MMR)
❒ Other_____ ❒ Other_____

QUESTIONNAIRE (For Influenza immunization, only 1-4 are needed)

1. Are you sick today? ❒ Yes ❒ No
2. Do you have allergies to medications, food or vaccines? ❒ Yes ❒ No
   Allergies _____
3. Do you have a history of Guillain-Barre Syndrome? ❒ Yes ❒ No
4. Have you ever had a serious reaction after receiving an immunization? ❒ Yes ❒ No
5. Are you currently being treated for a long-term health problem such as heart disease, lung disease, asthma, kidney disease, metabolic disease (e.g., diabetes), anemia or other blood disorder? ❒ Yes ❒ No
6. Are you currently being treated for Cancer, leukemia, AIDS or any other immune system problem? ❒ Yes ❒ No
7. Are you currently taking cortisone, prednisone, other steroids or anti-cancer drugs, or have you had X-ray treatments? ❒ Yes ❒ No
8. Have you ever fainted or felt dizzy after receiving an immunization? ❒ Yes ❒ No
9. Have you had a seizure, brain or nerve problem? ❒ Yes ❒ No
10. During the past year, have you received a transfusion of blood or blood products, or been given a medicine called immune (gamma) globulin? ❒ Yes ❒ No
11. Have you received any vaccinations in the past 4 weeks? ❒ Yes ❒ No
    If yes, what vaccines? _____
12. Are you allergic to eggs? ❒ Yes ❒ No
13. Are you allergic to latex? ❒ Yes ❒ No
14. For women: Are you pregnant or is there a chance you could become pregnant during the next month? ❒ Yes ❒ No

CONSENT TO IMMUNIZE

A vaccine, like any medicine, is capable of causing serious problems, such as severe allergic reactions. The risk of any vaccine causing serious harm, or death, is extremely small. Local symptoms may include: slight tenderness, redness, itching or swelling at the site of injection.

Systemic symptoms may include: fever, malaise and muscle pain. Other systemic symptoms may occur infrequently. These reactions usually begin 6 to 12 hours after immunization and can persist for a few days. Immediate presumable allergic reactions such as hives, angioedema, allergic asthma or systemic anaphylaxis occur rarely after immunization. These reactions may result from hypersensitive reactions in people with severe egg allergy, and such people should not be given certain vaccines that contain eggs. People with documented immunoglobulin E (IgE)-mediated hypersensitivities to eggs or any other vaccine components, including thimerosal, may also be at increased risk of reactions from immunizations.

In the case of a severe reaction such as a high fever, behavior changes or flu-like symptoms that occur after vaccination, see a doctor right away. Signs of an allergic reaction can include difficulty breathing, hoarseness or wheezing, hives, paleness, weakness, a fast heartbeat, or dizziness within a few minutes to a few hours after the shot.

I have read the adverse reactions associated with the administration of vaccines. A copy of the vaccine manufacturer's drug information sheet is available on request. Furthermore, I have also had an opportunity to ask questions about these immunizations. I believe the benefits outweigh the risks and I voluntarily assume full responsibility for any reactions that may result from either my receipt of the immunization(s) or the receipt of the immunization(s) by the person named below for whom I am the legal guardian ('Ward'). My medical record may be shared with my physician or other healthcare provider and the medical record of my Ward may be shared with his/her physician or other healthcare provider. I am requesting that the immunization(s) be given to me or my Ward. I, for myself and on behalf of my Ward, and each of our respective heirs, executors, personal representatives and assigns, hereby release GuidePoint Pharmacy, and its affiliates, subsidiaries, divisions, directors, contractors, agents and employees (collectively "Released Parties"), from any and all claims arising out of, in connection with or in any way related to my receipt and the receipt by my Ward of this or these immunization(s). Neither GuidePoint Pharmacy nor any of the Released Parties shall, at any time or to any extent whatsoever, be liable, responsible or any way accountable for any loss, injury, death or damage suffered or sustained by any person at any time in connection with or as a result of this vaccine program or the administration of the vaccines described above. GuidePoint Pharmacy will use and disclose your personal and health information or the personal and health information of your Ward, to treat you or your Ward, to receive payment of the care we provide, and for other health care operations. Healthcare operations generally include those activities we perform to improve the quality of care. We have prepared a detailed NOTICE OF PRIVACY PRACTICES to help you better understand our policies in regard to you and your Ward's personal health information. I acknowledge that I have received a copy of the Notice of Privacy Practices.
