

OPTIONAL ACCESSORIES

Improve your productivity and take advantage of new technology

Wireless Inductive Clamp

Self-contained, stand-alone transmitting inductive coupler. 3 frequencies, High & Low Power Outputs, rechargeable batteries. 4.2" & 6.5" Diameter options

Inductive Coupler 4" & 6.5" I.D.

Apply signal to live cables. 4" & 6.5" I.D.- Operational Frequency Range 8kHz to 82 kHz.

A-Frame (Ground Fault Locator)

Works Independent from the receiver. Detects both core-to-ground faults & sheath-to-ground faults.

512 Hz & 33 Hz Sonde

3.5" long x 0.80" diameter sonde for PL-VF uses (1) AAA battery (included) Depth: 10 feet in cast iron.

Padded Carrying Case

Soft carrying case for PL-2000 and PL-G Locators, color black with yellow logo.

Tracker 250

Apply current to the copper wire. 250' and 4.76mm diameter rod, coated with polypropylene to provide low friction and high abrasion resistance.

Tracker 600

Apply current to the copper wire. 600' and 7.94mm diameter rod, coated with polypropylene to provide low friction and high abrasion resistance.

PL-VF Clips, Direct Connect

Direct Connect Leads for PL-VF Series larger clips, sold as an accessory.

PL-VF Clips, Direct Connect

Direct Connect Leads for PL-VF Series included with the unit.

Ground Stakes

Metal conductive stake for Pipe and Cable Locators

PL-G & PL-2000 Direct Connect Leads

9' long cable with DIN connector for Pipe and Cable Locators

PL-G compatible

PL-2000 compatible

Inductive Clamp & Cable

4" opening Clamp with a 16' cable available in 2 types of connectors:

PL-G compatible

PL-2000 compatible

PIPE & CABLE LOCATORS

Proudly Made in the USA
