

16" T616

Continuing Orvil's trend of redefining the capabilities of HDD tools, we're proud to unleash our ultra-durable, extremely balanced line of hole openers. The T616 is designed with a dual focus on being fast and tough to make sure your job gets done quickly, and your tool stays in top condition. Orvil's proprietary design methods ensure speed and stability.

SPECIFICATIONS

Part Number	ORVIL014
Body Material	Steel
Blades	6
Cutter Size	5/8in. (16mm) profile 1/2in. (13mm) gauge
Cutter Count	61 profile, 12 gauge
Fluid Openings	6 carbide nozzles
Connection	3 1/2" API Reg
Gauge Length	2.00in.
Overall Length	19.00in.

FEATURES

- 1-Piece construction increases durability
- Strategically placed hardmetal reduces abrasion in wear prone areas
- Cutting structure and profile optimized to evenly distribute cutter loads
- PDC and TCI inserts placed for maximum gauge protection
- Compact design for ease of handling and make-up
