

Scream Cream

For Female Patients

Studies have reported that over 43% of the women in America experience little or no sexual satisfaction from clitoral orgasm and only 25% achieve orgasm with intercourse.

Help your female patients achieve orgasms by prescribing Scream Cream!

What is Scream Cream ?

Scream Cream is a pharmacy compounded clitoral cream that is made with rapid acting Sildenafil, L-Arginine and Menthol. Active in 15 to 20 minutes, Scream Cream increases clitoral and vulvar sensation, promotes healthy genital blood flow and improves sexual response to the stimulation of touching, caressing and loving foreplay. it can be used by women in all stages of life: postpartum, premenopausal, postmenopausal and even to enhance a normal sex drive.

What Women Report:

- Easier, faster orgasms
- Strong orgasms
- Multiple orgasms easier and faster

May be helpful to women who:

- Desire achieving multiple orgasms
- Want help gaining control over their orgasmic ability
- Need treatment for a variety of female sexual problems including hypoactive sexual desire disorder, hypoactive sexual arousal disorder, female orgasmic disorder, inadequate lubrication, sexual pain and sexual dysfunction secondary to medication or illness.
- Are postmenopausal with decreased sexual response to arousal

Directions: Apply to clitoris 15-30 minutes before intercourse.

Insurance: We will happily bill your patient's insurance for a non-compounded prescriptions!
