

Westcave Nature Scavenger Hunt

Grab a magnify glass, pair of binoculars, and your thinking cap to search for items on this fun nature scavenger hunt. Before you arrive at Westcave Preserve, print out or download the scavenger hunt below. Use your checklist during your walk to find each listed item and take a photo of it.

Challenge: Try to find every item on the list and photograph it.

Wrap up Questions

At the end of your hike, try answering the following questions:

- Did you find every item on your list?
 - If yes, how long did it take?
 - If not, did you find see, smell, or hear anything that told you it was there?
- What was the hardest item to find?
- What was your favorite discovery along your hike?

At Home Extension:

Continue your scavenger hunt fun with any or all of the activities below:

1. Create a Photo Collage: Go through your scavenger hunt photos and create a photo collage.
2. At Home Nature Scavenger Hunt: Try the nature scavenger hunt again in your frontyard, backyard, or nearby park. Afterwards create another photo collage to compare with the photo collage from Westcave.
 - What was harder to find at home than at the Preserve? What was easier to find?
 - Is there a difference in the photos of your two collages?
 - Do you think your collages illustrate the two habitats?
