

# Westcave Adjective Scavenger Hunt

Let your inner artist shine by photographing something along your nature walk at Westcave that represents to you each adjective in the list below. Before you arrive at Westcave Preserve, print out or download the adjective scavenger hunt. Use your checklist during your walk to find each listed item and take a photo of it.

Challenge: Have each member of your group try to photograph something for each adjective.

## Adjective Scavenger Hunt List

### Wrap up Activity:

When you arrive back at home gather around with the members of your group. Share each of your adjective photos and see if anyone can guess which of the listed words describe each one.

- If they guess correctly, ask why your photo made them think that adjective.
- If they did not guess correctly, ask why your photo did not appear to be adjective \_\_\_\_.

Take turns sharing with one another.

### At Home Extension:

Based on what others said of how well your photos represented each adjective try the activity again. This time do the photo scavenger hunt in your backyard, frontyard, or even inside your home. Add one more scavenger hunt item to take a photo to represent each member of your group, but it cannot be a literal picture of that person.

- Do you have a new perspective on your surroundings?
