

BUILD AT THE SPEED OF INSIGHT.

REDUCE INACCURATE CONSTRUCTION DOCUMENTS, CHANGE ORDERS & PROJECT DELAYS.

TruePoint
A  COMPANY

Time is money. As-built drawings are often out-of-date and inaccurate, leading to unexpected issues and critical delays. When you choose TruePoint, you provide your team with precise as-built data and models for reliable project planning, reducing the risk of change orders and project delays. Our 3D laser scanning services provide the link between unknown existing conditions and a true digital twin.

LASER FOCUSED ON YOU:

GENERAL CONTRACTOR

ON TIME

- Accurate construction documents to expedite decisions
- Capture millions of critical data points quickly
- Align planning and coordination for project efficiency

ON BUDGET

- Improve cost estimation and scheduling
- Eliminate site revisits and missed measurements
- Reduce rework costs due to change orders

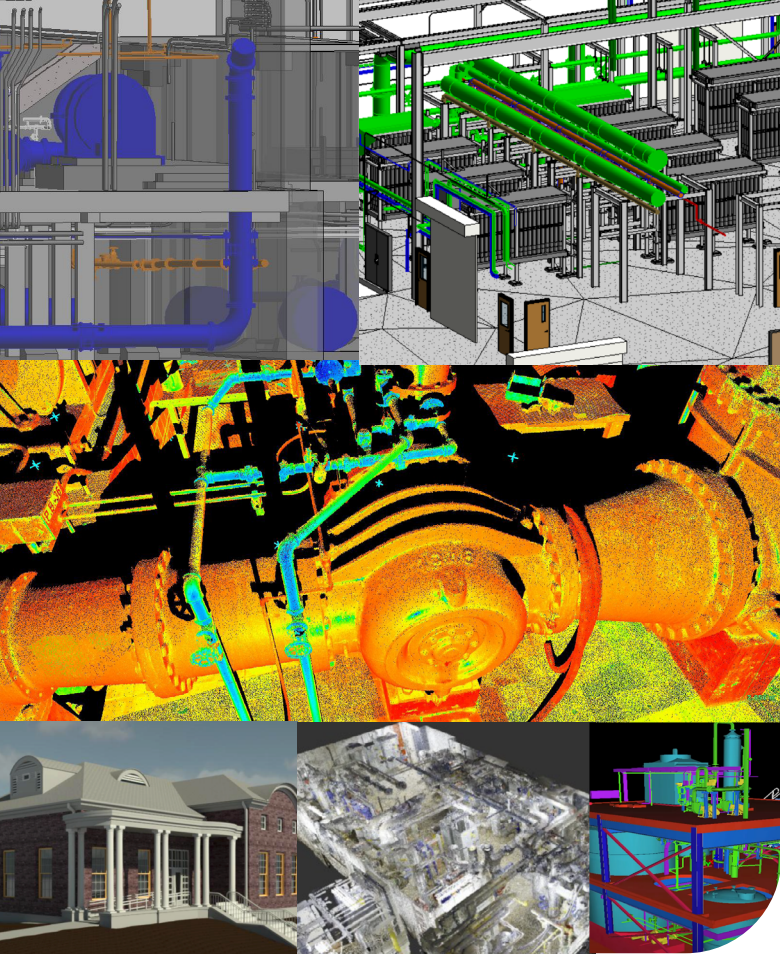

ENGINEER

QUALITY DESIGN

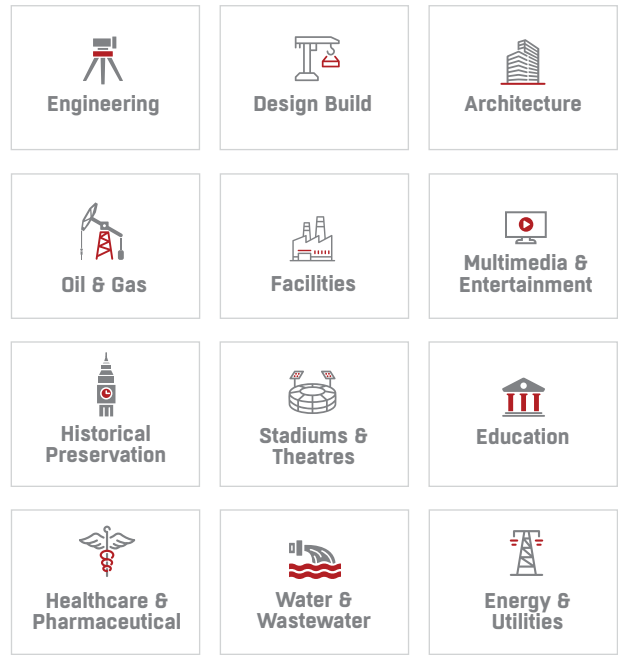

- Design confidently from precise as-built conditions
- Complete advanced analysis and off-site visualization
- Access tighter dimensions to significantly reduce clashes and unknowns

PROTECT YOUR REPUTATION

- Keep your clients' projects safe, on-time and on-budget
- Visualize and plan successful projects with BIM models
- Provide the most accurate, comprehensive data available

INDUSTRIES WE SERVE

CUSTOMIZED DELIVERABLES

- Point Cloud Data (Raw Data)
- 2D CAD Drawings
- 3D BIM Models
- 3D Mesh
- TruViews
- Advanced Analysis and Calculations
- 3D Virtual Tours

SERVICES

TruePoint

3D Laser Scanning

- As-Built Survey
- CAD Services
- 3D BIM Modeling Services
- Drone Services

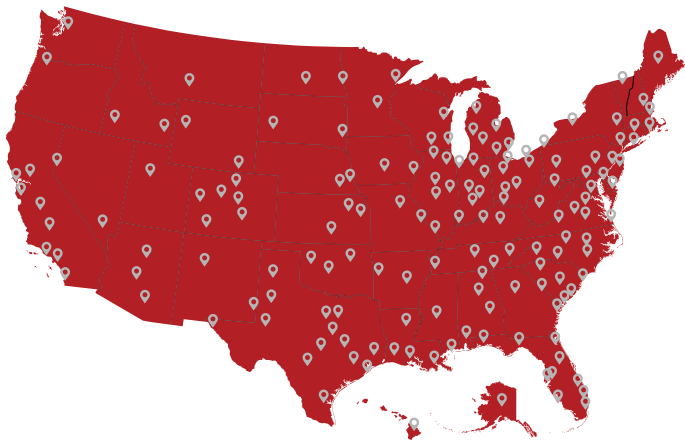

Subsurface Solutions

- Utility Locating
- Video Pipe Inspection
- Leak Detection
- Concrete Scanning

NATIONWIDE COVERAGE

Our Project Managers are located in most major US cities to provide convenient support and assistance for your business needs.
