Sonos Play: 5 Features

- Wirelessly streams your favorite music services over wi-fi, not Bluetooth, so the music never stops – even if you get a phone call. Set-up in five minutes using your home Wi-Fi.
- Easily expand your home audio system over time by adding wireless speakers to additional rooms whenever you're ready.
- Play different songs in different rooms at the same time. Or, pump one song in perfect sync, throughout your home.
- Includes a line-in option so you can plug in any device you desire.
