**Ada ITW located in Buenos Aires, Argentina** is a non-profit organization (NGO) created in 2017 to reduce the gender gap in IT, empowering women with technology through online courses in frontend and backend programming.

The program provides technical skills, soft skills, and job placement support. These three pillars are essential to complete the virtuous circle and lay the foundation for a diverse and inclusive industry.

### **Deferred Payment**

The Deferred Payment (DP) allows Ada ITW students to enter our program without incurring any costs at the outset. When the graduate finds and accepts a job in the technology field, they start repaying program tuition in fixed installments for 6-to-12 months.

The DP system is made possible thanks to our partner companies from industries that embrace Ada's mission and invest in the organization and our students.

In 2019 more than 70 women studied at Ada ITW thanks to Deferred Payments.

Investments from these companies do not end with the DP method of financing students. We designed the repayment system so that once a graduate starts repaying her loan, a new student is awarded DP financing. Successful program graduates “pay it forward” so that the DP system expands to enroll new applicants.

We welcome inquiries about Ada ITW and our students. Please contact us at [info@adaitw.com.ar](mailto:info@adaitw.com.ar) to learn more or visit our website at [www.adaitw.org](http://www.adaitw.org)

### **Versión en Español / Spanish version**

Ada ITW es una organización civil sin fines de lucro (ONG) que nació en el 2017 con la misión de reducir la brecha de género en IT. Esto lo llevan a cabo a través del empoderamiento de la mujer con cursos online, a nivel mundial, en programación Frontend y Backend.

El programa ofrece conocimiento técnico, habilidades blandas y acompañamiento y asesoría para la inserción laboral de las alumnas. Estos tres pilares son fundamentales para completar el círculo virtuoso y generar una industria más inclusiva.

### **Pago Diferido**

El Pago Diferido es un sistema de financiamiento en el que las mujeres pueden estudiar todo el programa y devolver el préstamo cuando encuentren su primer empleo en tecnología.

La devolución se estima al costo del curso en ese momento y en cuotas fijas desde 6 hasta 12 meses.

Los Pagos Diferidos son posibles gracias al apoyo de empresas del sector que invierten en estos cupos. Una vez la egresada comienza a pagar, se abre un nuevo cupo para otra mujer, por ende la inversión se multiplica y genera muchas más oportunidades.

Gracias a este sistema, más de 70 mujeres lograron estudiar en el 2019 bajo la modalidad de pago diferido.
