(California) with its analysis of their Student Data, Employment Outcome Rate and Graduation Rate for the period of **January 1, 2018 through June 30, 2018**. Management is responsible for Bloc, Inc.'s Student Data, Employment Outcome Rate and Graduation Rate. This agreed-upon procedures engagement was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants. The sufficiency of these procedures is solely the responsibility of those parties specified in this report. Consequently, we make no representation regarding the sufficiency of the procedures described in our report either for the purpose for which this report has been requested or for any other purpose.

Bloc, Inc. is responsible for the agreed-upon procedures to be performed outlined in Exhibit A and that it is in accordance with applicable standards; and for selecting the criteria and procedures and determining that such criteria and procedures are appropriate for their purposes. Bloc, Inc. is also responsible for, and has provided us in writing regarding the Company's assertions about accuracy and existence of Student Data, Employment Outcome, and Graduation Rates which is presented in accordance with the Council on Integrity in Results Reporting "CIRR" Standards & Implementation Requirements rev. 2018-03-19 "CIRR Standards", which governs outcome reporting for graduates of 2018.

**Agreed-upon procedures on Bloc, Inc.'s Student Data, Employment Outcome Rate, and Graduation Rate for Enrolled Students who graduated during the period of January 1, 2018 through June 30, 2018.**

**Definitions: (See Disclosure 1)**

- A. Published Course Length:** For self-paced programs, schools must report on all students who enrolled 12 months prior to the reporting period's start date until 6 months prior to the reporting period's start date. They must report the graduation rate by dividing the total number of graduates from the dataset by the total amount of enrollments from the dataset, and report the time to graduate as a table by dividing the number of graduates in six 30-day periods by the total number of students in the report.
- B. Employment Outcome Rate:** Calculated based on dividing (i) the number of graduates available for employment who accepted an offer of gainful employment within 90 and 180 days of graduation by (ii) the number of graduates available for employment. The Employment Outcome Rate is calculated as an aggregate number for all graduates of the Part-Time Web Developer program.
- C. Graduates:** Calculated based on the number of students who have successfully completed the requirements for graduation notated in Exhibit B. Students who successfully completed the requirements are eligible for graduation.
- D. Still enrolled as of the reporting end date:** Calculated based on the number of students who enrolled but not graduated and remain enrolled in the program as of the reporting period end date as a percent of total enrolled students during the reporting period.
- E. Withdrew:** Calculated based on the number of students who enrolled during the reporting period and withdrew from the program prior to the reporting period end date as a percent of total enrolled students during the reporting period.
- F. Median time (in days) to graduation:** Calculated as the median number of days graduates were enrolled in the program prior to graduation.

**Definitions (continued):**

- G. Graduation after enrolling date ranges:** Calculated bases on the number of days the individual graduates were enrolled in the program prior to graduation shown as a percent of total enrolled students for the reporting period.
- H. Employed:** Calculated based on the number of students who accepted offer of employment within 90 and 180 days of graduation. Graduates who attest the job requires the skills for which the student was trained at the school or provide document that states a job title that would fall under an in-field classification used by Bureau of Labor Statistics SOC codes. All other employed graduates are considered out-of-field: The following graduates are considered employed in-field:
  - i. Graduates who accept a full-time, part-time, or contract position in a role relevant to the Bloc, Inc. curriculum.
  - ii. Graduates who return to their previous employer if the position is a role relevant to the Bloc, Inc. curriculum.
  - iii. Graduates employed by Bloc, Inc. as an instructor or other technical position.
  - iv. Graduates who start their own business in a founder role (entrepreneurs).
- I. Non-Reporting:** Calculated based on the number of graduates who did not respond to a minimum of four attempts through two different means of communication.
- J. Enrolled Students:** Enrolled students are all students in a course as of (i) the final date under applicable state regulations on which the school is required to provide the student with a full tuition refund, or (ii) if applicable state regulations do not contain such a requirement, the final date as specified in the school's published policies on which a student may receive a full tuition refund. The full tuition refund may exclude nominal non-refundable registration fees. Enrolled Students do not include students who became deceased or incarcerated, or were called into active military duty during the course.

**Disclosure:**

- 1. Management has determined that certain deviations from the aforementioned definitions set forth by the CIRR Standards were necessary. These deviations are noted in detail below:
  - a. Per the Published CIRR Standards & Implementation Requirements Rev. 2018—03-19 *"For self-paced programs, schools must report on all students who enrolled 12 months prior to the reporting period's start date until 6 months prior to the reporting period's start date"*. However management has determined that exclusion of these graduates would result in misleading statistics in regards to the Graduation Rate. Accordingly, management has included students who enrolled prior to January 1, 2017 (12 months prior to the reporting period's start date) and after June 30, 2017 (6 months prior to the reporting period's start date).
  - b. Management has determined to exclude from our procedures certain statistics included in Section III. *Graduation Data-Enrolled Students* or the CIRR Outcomes Report: Accordingly, AGL CPA Group, LLC has not performed any procedures which results in no findings for the following statistics, reported by Bloc, Inc.:
    - i. Still enrolled as of the reporting end date
    - ii. Withdrew
