

## **APS Pharmacy Launches Smartphone App and Redesigned Website**

*The APS Pharmacy smartphone app helps patients conveniently manage their medicine.*

PALM HARBOR, FL ([PRWEB](#)) September 30, 2016 -- APS Pharmacy announces the launch of its free smartphone app for iPhone and Android users.

The app allows APS Pharmacy patients to manage multiple refills, set medication reminders, identify pills, receive health news alerts and exclusive promotions.

“APS Pharmacy wants to provide the best patient experience as possible,” Jaime Rios, APS Pharmacy president, said. “The APS Pharmacy team is patient-focused and we want to meet the demand of our patients. We hope this smartphone app will make APS Pharmacy patients’ lives a little bit easier when ordering their medication.”

APS Pharmacy also announced the launch of its redesigned website, [www.apsmeds.com](http://www.apsmeds.com), and features much of the same functionality of the smartphone app.

“It’s a mobile world now, but we felt apsmeds.com needed an overhaul,” Rios said. “The design team improved the patient friendliness of the site. We encourage patients to take advantage of both resources.”

The free APS Pharmacy smartphone app is available for download at:

- iTunes store: <https://itunes.apple.com/us/app/id1143278252>

- Google Play: <https://play.google.com/store/apps/details?id=com.rxwikiplus.a7275472654>

### About APS Pharmacy

APS Pharmacy, designated 503A, is a leading compound pharmacy headquartered in Palm Harbor, FL. APS Pharmacy specializes in treatments for addiction, hormone replacement therapy, environmental medicine, urology and workers’ compensation.

APS Pharmacy’s philosophy is that medicine is not one size fits all; APS Pharmacy makes medicine from scratch to meet the specific needs of the individual patient. The APS Pharmacy mission is to make medicine that is safe, reliable and affordable.
