

Injection Instructions (Reconstitution Not Required)

1. Wash hands thoroughly.

2. Remove flip-top cap from the vial.

3. Wipe both rubber stoppers with an alcohol prep pad and allow to dry.

4. Choose an injection site that may include your upper arms or thighs.

5. Prepare skin by cleaning with an alcohol prep pad and allow to dry.

6. Withdraw prescribed dose amount from the vial with provided injection syringe (see Rx label or doctor's instructions for dosing). After withdrawing your prescribed dose, tap the syringe to remove any air bubbles.

7. Using your thumb and forefinger, pinch up approximately 2" of cleaned skin on injection site, pulling skin taut. Insert needle at a 45° to 90° angle.

8. Slowly push plunger down, fully injecting medication.

9. Remove needle and apply pressure to site if needed.

10. Carefully dispose of syringe in a Sharps Container.

WARNING: Reminder, do not add water. Improper use, storage, and/or disposal can negatively impact other people, pets, and the environment. Compounds, such as hormone replacement medicine, can be hazardous or harmful if not used as prescribed by your practitioner.

Follow your physician's instructions and use medicine only as prescribed. Keep out of reach of children and pets. Dispose of any unused compounds in the trash.

Do not flush or dispose of compounds down a sink or drain. Please consult a pharmacist with any questions.

APS Pharmacists are available for consultation and questions toll free 1-855-787-4137.

Serious adverse reactions should be reported to your physician, APS Pharmacy, and FDA MedWatch 1-888-463-6332.
