

What is Nufill?

It's a new program provided by NuCara to synchronize your prescription refills so all of your medications are filled and ready to be picked up one time every refill cycle. This service is FREE for you and will take the hassle out of remembering to get your medications filled.

What to expect with Nufill?

We will work with you to setup all of your medications on the refill cycle that works best for you. The week before your appointment day, we will call you to verify the medications you need filled and obtain any recent medication changes made by your doctor. We take care of the rest.

Since we are looking over your drugs prior to you picking them up there is no need to worry about running out of refills. Plus, the pharmacist will be providing comprehensive care every refill cycle and ultimately giving you more personal contact with your pharmacist.

To get started:

- Confirm the refill cycle and enroll your prescriptions in Nufill.
- Accept a phone call from the pharmacy every refill cycle to discuss your medications.
- If necessary, pay an additional copay for each medication the first month in order to get all of your medications filled on the assigned Nufill day.
- Keep the pharmacist informed regarding any health and medication changes so NuCara can update your personal Nufill profile.

I hereby agree to the terms and conditions set forth above:
