Benefits:

- Enhanced Professionalism
- Improve Customer Service
- Team Cohesion Visible to Customers
- Positive Perception of Hygiene & Care
- Promotes Accountability
- Brand Representation

Design For Fun

- Dancing is encouraged 😊
- Feel good music
- Upbeat music

Simple, fast, and affordable compared to other car washes. Friendly Staff and the atmosphere at the vacuum area is upbeat with a good mix of **music**. If you download the app the process is even faster.

I love coming here to wash and vacuum the car. How many places jam oldies over the loudspeaker inside the car wash? Then drive out to the free vacuums and more **music** is pumping out of the speaker. I take my teenage sons with me to introduce them to **music** that's before my time but I love and they tell me they know it from video games!

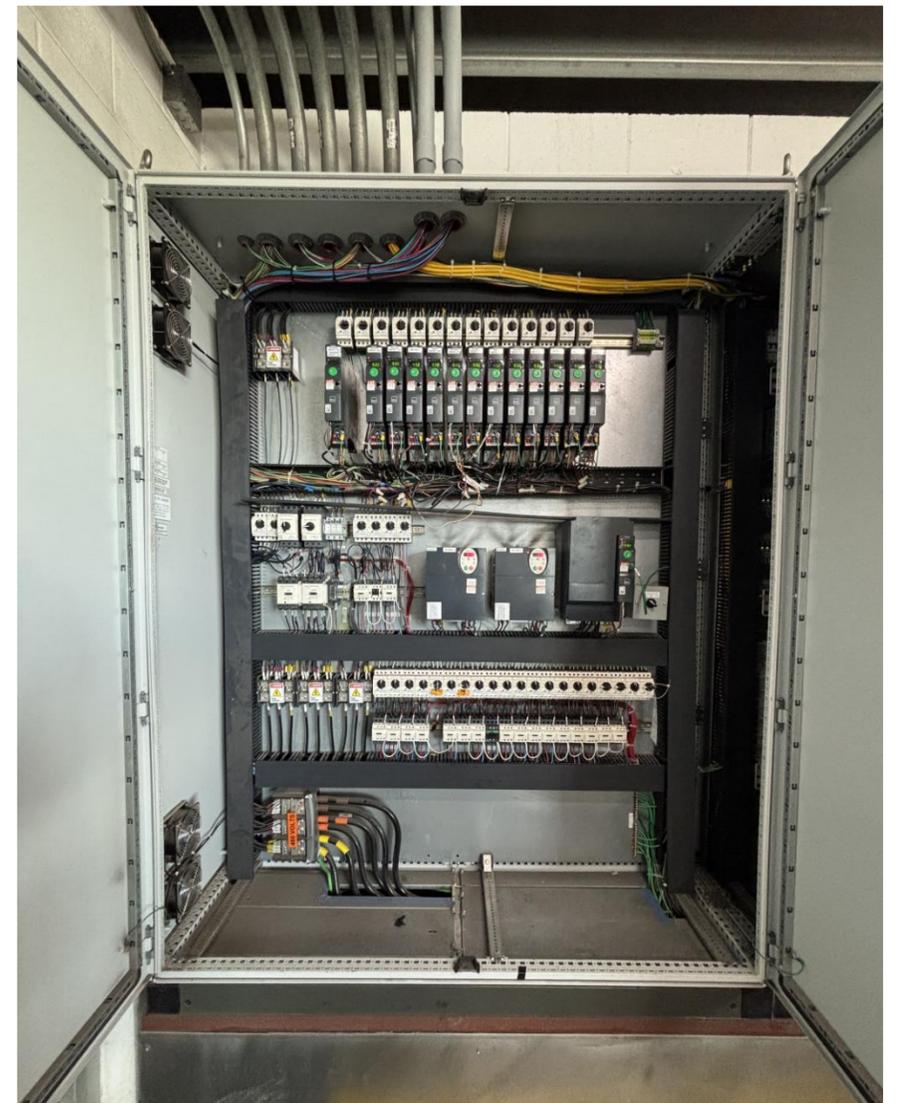

Design For Cleanliness CW Tunnel

- Specialized training & experience in cleaning techniques. This expertise results in a more thorough and effective cleaning.
- Allows your staff to focus on their primary responsibilities = serving customers & operating equipment.
- Creates a better experience for both staff and customers.
