---

**"Leadership in Action"™**

Seventy-two outstanding students completed the 2018-2019 Lone Star Leadership Academy Alumni Council program. Members represented 40 school districts and five private schools. This special edition newsletter highlights these students and their accomplishments as members of this year's Alumni Council.

*Program and Purpose*

Educators nominate outstanding students to participate in Lone Star Leadership Academy summer camps. After camp, alumni may join the Lone Star Leadership Academy Alumni Council to receive a structured and guided opportunity to continue developing their leadership skills during the school year. House of Shine, a 501(c)3 non-profit organization committed to helping young people reach their fullest potential, provides the curriculum for the Lone Star Leadership Academy Alumni Council online leadership lessons.

Members put what they learn in the lessons into action by creating and leading service projects in their communities. Through these service projects members exercise their leadership skills while improving the lives of those in their local and global communities.

Members who successfully complete the alumni program may return to Lone Star Leadership Academy camps as Youth Facilitators. Youth Facilitators mentor younger students participating in the Lone Star Leadership Academy and receive additional leadership training during the camp.

The Education in Action staff commends the accomplishments of the 2018-2019 Lone Star Leadership Academy Alumni Council. We look forward to their participation in future Education in Action programs and to watching them grow and achieve throughout their educational careers and beyond.

***Education in Action sincerely appreciates the contributions of each student's service project sponsor!  
The time and support they provide adds great value to the experience of the Alumni Council members.***

*More about the Leadership Lessons*

Alumni Council leadership lessons inspire members to ignite their power within and, ultimately, change their world for the better. While the Alumni Council curriculum is a four-year program, members may participate one to four years, or more. Members that participate for consecutive years are rewarded with a comprehensive Leadership Portfolio that showcases the talents, skills, and knowledge they acquired. The first year's lessons focus on helping members identify their SHINE (Strengths, Hobbies, Interests, Needs, and Experiences), while the second year's lessons help alumni find their Point of Intersection, the place where their Interests and Talents, and a Need intersect. Next year will be the first year an Alumni Council group will receive the third year of lessons which will focus on crafting a leadership vision and the role gratitude plays in being an effective leader.
