Special Edition Newsletter – 2016-2017 Lone Star Leadership Academy Alumni Council

"Leadership in Action"™

Education in Action is proud to announce 81 outstanding young student leaders successfully completed the 2016-2017 Lone Star Leadership Academy Alumni Council program. Members represented 50 school districts, one charter school, and six private schools. This special edition newsletter highlights these students and their accomplishments as members of the 2016-2017 Lone Star Leadership Academy Alumni Council.

Program and Purpose

Each year outstanding student leaders are nominated by their educators to participate in summer Lone Star Leadership Academy camps. Upon completion of these leadership programs, alumni are invited to join Education in Action's alumni organization, the Lone Star Leadership Academy Alumni Council, where they receive a structured and guided opportunity to continue their leadership training during the school year. This year's lessons focused on social media as a communication tool, random acts of kindness, and developing a definition of leadership and a personal list of core values. Leadership skills were honed and put into action through service projects which members were responsible for creating and leading in their communities. Through these service projects, members improved the lives of those around them. Project requirements included finding a teacher/sponsor, creating a project action plan, incorporating the assistance of at least two peers, and providing a summary of their project and how it benefited their community.

Members who successfully complete program requirements have the opportunity to return to Lone Star Leadership Academy camps as Youth Facilitators. Youth Facilitators mentor younger students participating in the Lone Star Leadership Academy and receive additional leadership training during the camp.

The Education in Action staff commends the accomplishments of the 2016-2017 Lone Star Leadership Academy Alumni Council. We look forward to their participation in future Education in Action programs and to watching them grow and achieve throughout their educational careers and beyond.

In their quest to become better leaders, an elite group of students signed up to participate in the 2016-2017 Lone Star Leadership Academy Alumni Council. This year, membership

requirements included completing three online leadership lessons, selling scholarship fundraiser tickets, and creating and carrying out a service project. I encourage members to choose service projects close to their hearts because as they work through the projects, their concern for the causes increases along with their results. As the Lone Star Leadership Academy Alumni Council Coordinator, I am amazed and inspired by the positive contributions these students make to our world. These students are learning that change starts with one determined person willing to take on a challenge. They help me believe that our future is in good hands. Their hard work and accomplishments always inspire me to become more involved. I hope you are inspired as well.

Kollin's most recent service project, Tennessee Wildfire Relief, provided items to help victims of the fall 2016 Tennessee wildfires. Kollin stated, *"Leadership is not a quality I possessed at birth. They painted more than 100 children's faces throughout the day free of charge. Ethan said, "I enjoy being artistic and I liked seeing the smiles as kids viewed their new look in the mirror. Project: Warm Coats, Warm Hearts - Charlize, along with her brother and sister, collected 364 winter coats and jackets at three locations: Settlers' Way Elementary, WCP-St. Laurence Catholic School, and the Traditional Karate Center. They donated the coats and jackets to three organizations: Fort Bend Women's Center (a shelter for survivors of domestic or sexual violence and their children); Star of Hope (a shelter for homeless men and women and their children); and Youth Immigration and Detention Center (a detention center for children rescued from human trafficking and gang violence). Charlize's project started with just her family but more joined the effort as word of her project spread. Ultimately, 16 different families joined to help. Charlize said, "My project began with a wish. An 11-year-old girl like me only wanted a fleece jacket for Christmas. I was touched because she asked for a basic need and not a toy. It made me think of how many children need coats for winter and I found so many of them. I wanted to help as many as I could. I have been forever changed by this experience so I have decided to make this my yearly service project. This project helped me become a better leader because I had to step out of my comfort zone to be able to talk to school principals and business owners to set up coat collection boxes. I also spoke during my school's morning announcements to convince my schoolmates and school staff to donate coats. I am proud of how many people were able to keep warm with 'new' coats." being used. Now, thanks to Cayson's crew, it is again a functioning part of the Operation Kindness shelter. Cayson said, *"I experienced several setbacks with this project due to inclement weather.
