

MEN'S HEALTH FACT SHEET

ABOUT SBH MEDICAL:

- SBH Medical (SBH) is a full-service compounding and infusion pharmacy providing innovative treatment options for physicians and patients. SBH is committed to delivering the highest-quality products, maintaining clinical excellence and providing premier customer service.
- Headquartered in Worthington, OH, SBH was founded over 35 years ago and is a member of the Professional Compounding Centers of America.
- SBH also is accredited via the Accreditation Commission for Health Care (ACHC) and the Pharmacy Compounding Accreditation Board (PCAB).
- SBH offers custom compounding, home infusion, physician/office-based services, clinical access and access to alternative forms of commonly prescribed medications.
- SBH has an on-site pharmacy where patients can pick up their prescriptions, or prescriptions can be shipped directly.

ABOUT MEN'S HEALTH COMPOUNDING:

- SBH offers an alternative treatment for erectile dysfunction called Tri-Mix, an injection containing a customized mix of the medications Alprostadil, Papaverine and Phenotolamine.
- Erectile dysfunction affects 30 million men. For some, oral treatment and vacuum pumps are ineffective and cause intolerable side effects, making Tri-Mix the alternative, appropriate treatment.
- Tri-Mix is given to patients through a penile injection and has shown to increase efficacy and reduce side effects.
- Unlike every specialty pharmacy, SBH has the capability to compound Tri-Mix in a sterile environment.
- SBH also can compound and supply other men's health products including injections, gels, creams and troches to treat issues such as testosterone replacement and Peyronie's Disease.
