The Chef defines her cuisine as a combination of cultures, philosophies and cooking techniques. Sourced from local purveyors and the Gulf waters, our food is inspired by the Awadhi style of cooking – the art of cooking over a slow fire, with the subtle use of spices and herbs to create delicate flavors. Much of the food is cooked in tandoors and wood-burning ovens in the style of the Indian North-West Frontier Province. Our dishes are inventive but authentic to the traditions and style of north Indian cuisine.

Join us on a journey and experience our signature dishes with these tasting menus.
