Group Member Evaluation   **Name: _____**

Please fill in the group member name and rate each question on a 1-25 scale (if you rate group members with the full 25 points on each item, they will be assigned the full 100% of the group grade earned). IF you only assign a member 90 points in total, then you are indicating that they only deserve 90% of the grade the group earned. Please justify deduction of points for group members (in the comments section).

***You must also evaluate yourself.

COMMENTS: Please make any comments about your team members here. Remember you are being graded not only on your ability but also on your group members' ability, if they did not do any work please let me know here. Comment on the difficulties you experienced completing this project. If you decide that all your group members worked effectively together and you gave them all the same grade, I want your explanation as to how your group worked together.
