My Favorite Assignment Supplemental Teaching Materials Jessie Lynn Richards, PhD University of Utah Jessie.richards@eccles.utah.edu

Overview of Assignment and Rubric

The purpose of this assignment is to help you identify and analyze how visual rhetoric functions in everyday communication. Analyzing and articulating the persuasive functions of everyday objects will help you understand how communication functions across all types of industries – from advertising and marketing color schemes to the layout of business reports to a small conference room set up.

For this assignment, you are going to conduct a visual rhetorical analysis of an everyday object. We will learn how to do this in class, but you should start thinking now about what you want to analyze.

In communication studies, we call a designated piece of visual communication an "artifact." An artifact can be almost anything: it can be a 3-dimensional object or a digital or print piece of communication.

For this assignment, I want you to choose a 3-dimensional, "everyday" artifact that has some sort of meaning to you. Choose something you use regularly and consider a semiessential artifact in your life.

Once you've identified your artifact, you'll conduct an analysis using the 6-step process below. You'll then present your findings in a 3-5 minute oral presentation to your peers.

6-Step Process

- 1. Choose an everyday artifact
- 2. Research the artifact's history, context, and usages gather as much information as you can
- 3. Describe the artifact's elements and parts by separating it into components
- 4. Evaluate the rhetorical devices and elements of persuasion employed by the artifact
- 5. Explain how the artifact's visual rhetoric impacts its audience/users
- 6. Make an oral argument about the purpose or impact of the artifact based on your analysis

Rubric

Criteria		Ratings	
Analysis The artifact's elements and parts are separated out and described with sufficient detail.	2 pts Full Marks	0 pts No Marks	2 pts
Analysis The artifact's context is explained and used to situate and understand the artifact itself.	2 pts Full Marks	0 pts No Marks	2 pt
Rhetorical Devices	2 pts	0 pts	2 pt
