

Instructions to students

Anything but PowerPoint

Susan L Luck

Pfeiffer University

Take one of the 20 presentation tools listed in this unit and prepare a short (no longer than 2 minutes) video presentation on one part of the Hacker material. To choose, look at the bulleted sections under the index to sections 1-9 in the back of your text. For example, you may want to use a Brainshark about parallel structure. Post your finished presentation for feedback and review.
