## Assignment

- 1) On ChatGPT, type in an essay question from any exam you have taken, in any course. Ask the software to provide a three-paragraph answer. Insert the question and response below.
- 2) Next, see how you can improve the responses by tweaking the question. Insert the modified questions and responses below.
- 3) Consider the upcoming writing assignment prompt in this class. Type in a question that will produce an introductory paragraph. Insert the question and response below.
- 4) Again, see how the response improves when you tweak the question. Insert the modified questions and responses below.
- 5) Considering the upcoming writing assignment prompt again, type in a question that will produce a conclusion to the paper. Insert the question and response below.
- 6) Again, tweak the question to see if you can improve the conclusion. Insert the modified questions and responses below.
- 7) Finally, prepare a three-paragraph reflection on ethical concerns with ChatGPT (AI) and how it can and cannot be effectively used to prepare writing assignments. Your response should be based on your own observations as well as our class discussion.
