

## Sales Year Round Internship

The internship is designed for students passionate about pursuing a career in strategic sales. Our teams are highly collaborative with a focus on cultivating strong customer relationships and using innovation, insights, and analytics to drive growth. Our main areas of strategic sales are Account Management and Category Development and you'll gain exposure to both during the internship. Past projects have included analyzing ecommerce trends that impact in-store execution strategies, identifying key price gaps, and developing efficient promotion opportunities. We want you to feel empowered to craft your own experience with us by providing opportunities for you to seek involvement cross functionally.
