Sunday June 13, 2021

64315.0 Predicted Peak **HE17** Peak Hour **0.0%** 4CP Probability

TODAY, June 8, 2021, will have a moderate to high probability of being a 4CP day.

If you consume less power during these peak hours, you can SIGNIFICANTLY REDUCE your total electric bill for the coming year.

If possible:

- Do not bring any new equipment online.
- Slow down operations, particularly in the afternoon from 4:00 pm until 7:00 pm
 - Turn off any unnecessary equipment.

If you have any questions about 4CP, please feel free to give us a call.

If you would like 4CP text message alerts, please email support@pumpjackpower.com with your phone number to request
