

## Healthnetwork Pulse

Oct 2020

Friends,

If we learned anything from 2020 it is that we cannot take our health for granted. Everything has changed, and access to the best medical care—and trustworthy medical information—is going to be even more of a priority than it was in the past. No matter what the rest of 2020 brings, please do not hesitate to call us at +1 866-968-2468 or [make a request online](#). We are here for you.

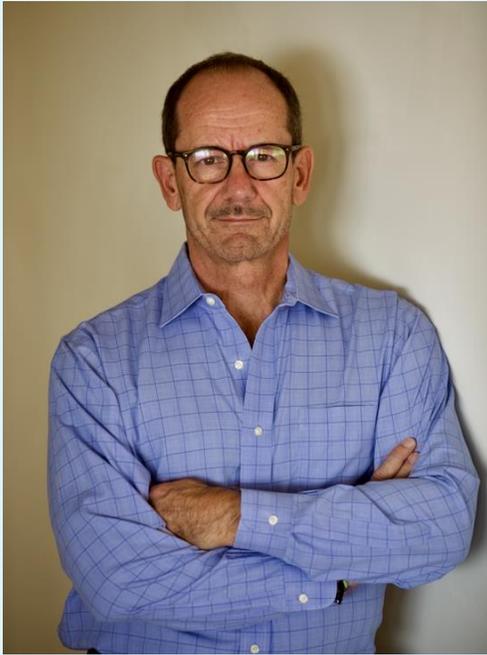

Thank you for your time and support.

### The ABZzzzzs of Sleep

We've been hearing a lot about social distancing and masks, but perhaps not quite enough about something else that is essential for health and immune function: *Sleep*. We recently hosted a webinar with the Director of Cleveland Clinic's Sleep Disorders Center, Nancy Foldvary-Schaefer, DO, MS. She calls sleep deprivation one of the most significant, unrecognized public health issues of modern times.

At least 40% of U.S. adults don't get enough sleep, and the consequences can be severe. Insufficient sleep is linked to all kinds of serious health problems. Learn more: [“The ABZzzzzs of Sleep.”](#)

## The Difference Between Good and Best

*“Bespoke concierge service—this is how medicine should be!”*

– Fred Thiel

Chairman & CEO at Thiel Advisors, Inc

Fred Thiel was no stranger to back pain, and he wasn’t even all that surprised to learn he needed back surgery. But the severity of the surgery being suggested took him aback. Fred knew if he had to go down this road, he wanted only the very best.

You’ll see Fred’s story in the Fall 2020 magazine (coming soon to your mailbox!) but you can get a sneak peek by [clicking here to read it now.](#)
