

Healthnetwork Pulse

Dear Friends,

As they say, “The only thing you can count on is change.” Our world went topsy-turvy, and then just as most of us were settling back into a new normal, things changed again. I don’t know about you, but I wouldn’t mind a little less change and a little more same-old-same-old.

But, for those moments when life throws you a curveball, Healthnetwork is here for you. When you get blindsided with a diagnosis, when you suddenly need a second opinion, when you’re feeling overwhelmed—you’ve got our number.

I hope you never hesitate to call us for any serious medical need, at +1 866-968-2467 or make a request online.

We are here for you.

This is Why You Need a Second Opinion

“From January through March, my wife endured a lot. She saw five different physicians and had countless scans, MRIs and appointments. When one of the specialists speculated that she had amyotrophic lateral sclerosis (ALS), our world came crashing down. I couldn’t imagine we would ever resume our normal life again.”

When you get a life-changing diagnosis like that, you want a second—or third or fourth—opinion. We can help you get that.

Our Fall 2021 Magazine

Keep an eye out for our Fall Magazine which will be coming to your mailbox in late September. You won’t want to miss these inspirational stories:

- a promising high school athlete who needs a complex nerve repair surgery,
- a health-focused wife and mother who is surprised with a rare cancer diagnosis,
- a successful business leader who is fighting long-haul COVID symptoms.

And one of the stories we are most excited about is the incredible donations we were able to make this year thanks the generosity of our donors. We announced a new class of Service Excellence physicians (20 physicians honored thanks to a generous donor who joined with us to provide these gifts) and a half a million dollars more was given to previously awarded Service Excellence physicians.
