All pertinent and applicable folks listed by name, phone and email

Credentials that allow access to all POS areas

Catering access, if possible

CAD or SITE MAP

Up to date map with POS locations marked and # of tablets at each location

POS booth names (or numbering) clearly indicated

ADMINISTRATIVE NOTABLES

Depending on the requirements of your event, we will have a number of deadlines:

Merchant processing accounts are always top priority. We need gateways routed before we can complete anything else.

POS menu information needed 2 weeks prior.

Are you accepting cashless? Do you need a registration page? Make sure we are aware of your wristband fulfillment dates so we have everything finished prior to mailing.

Set up training on site with our technicians! We are happy to set aside time with groups rather than training one vendor at a time. This is a great time to train vendors and managers. Managers can then train, as well.

Make sure we are 100% aware of how you would like to your settlement process to flow.
