The Empathetic Scientist

“As a physician, we are trained to be scientists, but this is not enough. To truly be an excellent physician requires medical excellence tempered with empathy. It is a privilege for me to have the opportunity to apply this artistry to the full range of health issues I encounter as an obstetrician/gynecologist.”

Providing Women’s Healthcare...and more

“We continually strive to provide comprehensive traditional women’s healthcare in a comfortable and personal environment, while offering additional medical services for women not typically found in an ob/gyn office. Along those lines, we are proud to offer the services of our skin care specialist, Marina Jick, RN. Please consider treating yourself to a special visit at Marina’s Oasis!
