

Thank you for choosing AllHealth Network Pharmacy to get your COVID-19 vaccine. You are helping to protect yourself and those around you from COVID-19.

**Please continue reading for instructions for the day of your appointment.**

- Arrive at the pharmacy at or a few minutes before your scheduled appointment time.
- When you arrive, pull into a parking spot. Text the pharmacy at 720-262-2583 or call 303-797-2500 to let us know you have arrived. We will let you know when you are able to come into the store for your vaccine.
- Wear a mask and short sleeve shirt so we can access your upper arm.
- You will be receiving a Moderna COVID-19 vaccination. You will be asked screening questions at check in and will be screened out if you have COVID-19 symptoms. You must fill out, sign and date the COVID-19 consent form prior to receiving the vaccine.
- You cannot get the vaccine if you have had any other vaccinations in the last 14 days.
- Two doses are required to complete the vaccination series.
- Plan 30 minutes for your appointment. It is important that you stay at the pharmacy for 15 minutes after you get your vaccine so you can be monitored for any reactions that may occur.
- **Please reschedule before arrival if you have symptoms.**
- Because of how the vaccine is packaged, we must give a certain number of vaccines within a certain amount of time in order to not waste vaccine. We may call you to ask you to get your vaccine earlier, later, or on a different day.

- Please remember you will not be considered protected until 2 weeks after your second dose of COVID-19 vaccine. Continue to follow masking, social distancing, and other protective measures.
- After you've been vaccinated, use [v-safe on y](#)our smart phone to tell the CDC about any side effects after getting the COVID-19 vaccine.
