The Need

*Accidents happen to all kinds of people every day. In 2005, over 30 million people sought medical attention for an injury and almost 3 million of these were hospitalized.**

What would the financial impact of an injury mean to your security? Are you prepared for medical debts in addition to everyday household expenditures and lost wages? Out-of-pocket expenses associated with an accident are unexpected and often burdensome; perhaps the accident itself could not have been prevented, but its impact on your finances and your well-being certainly can be reduced.

Aflac pays cash benefits directly to you, unless you choose otherwise. This means that you will have added financial resources to help with expenses incurred due to an injury, to help with ongoing living expenses, or to help with any purpose you choose. Aflac Accident Indemnity Advantage is designed to provide you with cash benefits throughout the different stages of care, regardless of the severity of the injury.

The Accident Indemnity Advantage Insurance Policy has:

- No deductibles and no copayments.
- No lifetime limits.
- No network restrictions—you choose your own medical treatment provider.
- No coordination of benefits—we pay regardless of any other insurance.

Aflac enables you to take charge and to help provide for an unpredictable future by paying cash benefits for accidental injuries. Your own peace of mind and the assurance that your family will have help financially are powerful reasons to consider Aflac.

When you consider the competitive cost of providing your family with Aflac, it's truly remarkable that this policy could potentially save you and your loved ones from financial uncertainty during a very stressful time. Knowing that you have prepared for the many financial consequences of an accident is an assurance in itself, yielding strength and confidence for uncertain possibilities.

Aflac is a market leader with more than 50 years in the insurance industry. We continue to be ranked the number one provider of individual health and guaranteed-renewable insurance in the United States ("Life and Health Statistical Report," *National Underwriter*, August 2008), and we work hard to help meet your insurance needs.

Out-of-pocket expenses associated with an accident are unexpected and often burdensome; perhaps the accident itself could not have been prevented, but its impact on your finances and your well-being certainly can be reduced.
