## Happy Holidays!

Greetings and Happy Holidays!

All our stockings were hung by the crystals with care in hopes that Saint Nick would soon be there. Just a reminder we will be closed on Christmas day and will be closing early Christmas Eve, December 24th, so please do your last minute shopping not quite so last minute. We will be open bright and early (10:00 am) the day after Christmas, December 26th so everyone can come play and find their special treasure gift.

We had a great time last month in Humble, Texas at the Houston Gem and Mineral Show (our booth looked great) and we really enjoyed our dinosaur and fossil fun at Dell Diamond during Fossil Fest again this year. Our Customer Appreciation weekend was so much fun and full of lucky 50% discount winners.

Can you believe it, another year has gone by so quickly. I am already starting to look at our needs for the annual trip to Tucson. Next year will be quite a milestone for Nature's Treasures. For the first time ever we will be selling (agates) at the Tucson International Gem, Mineral & Fossil Show.

If November's energy is recognized for expressing what we are thankful for, then December's should be for acknowledging all the blessings in your life and especially this past year. Acknowledge and express your blessings and watch how it will help you manifest wonderful things in your life.

We hope everyone has the most blessed Holiday Season!

Blessings to all,  
Karen and the staff

## December's Birthstone

### Turquoise

Turquoise is the talisman of kings, shamans, and warriors. It is a stone of protection, strong and opaque, yet soothing to the touch, healing to the eye, as if carved from an azure heaven and slipped to earth. Its unique shade of blue-green often comes with delicate veining or mottled webbing in cream or brown that is inherent to the stone and serves to enhance its character.

For thousands of years, Turquoise has spanned many cultures,

prized as a symbol of wisdom, nobility and the power of immortality. Among the Ancient Egyptians, Persians, Chinese, Aztecs, Incas, and Native North Americans, Turquoise was a sacred adornment worn for power, luck, and protection. For nearly a thousand years, Native Americans have mined and fashioned Turquoise, using it to guard their burial sites. Their gems have been found from Argentina to New Mexico. Indian priests wore it in ceremonies when calling upon the Great Spirit of the Sky. Many honored Turquoise as the universal stone, believing their minds would become one with the Universe when wearing it.

## 10 Ways to Make 2018 Better

by Folade Speaks

2017? I am giving you a huge, tight energetic hug for showing us the patterns and people, places and old belief systems that need absolutely no more energy! Clear as it may be, it is easier said than done! Here are 8 ways to rebuke the shadows and summon the light!

#10

Buy a piece of jewelry for your left side to remind you of incoming blessings that symbolizes staying focused on new commitments. Three years, I wore a butterfly ring on my left hand to remind me to seek moments of flight and grace in every day. Once I bought bracelets made from women artists in Rwanda as a reminder to recommit to my art practice.

#9

Spirit / Animal Totem

Have you identified symbols that show themselves at relevant moments, or dreams with recurring animals or symbology? The snake, for example, reminds us to be a constant state of letting go of external layers. The frog is a symbol for cleansing, and many empaths identify with the frog because it has the sensory system to feel vibrations of the planet that other animals do not feel. This might be a symbol to move you into an appreciation of your empathic development, rather than repress it. You can also utilize the powers of Egyptian and mythic Goddesses and Gods to draw their energy into your home and life via statues or miniature figures.

*A Note on Agates:*

Silica is the key component to agate formation since it belongs to the quartz family made up of  $\text{SiO}_2$ . Because of their beauty and durability, agates have been used since the Neolithic as tools, jewelry, tableware and decor for thousands of years. Although agate has been used for ages, new world agates have only been mined recently and many varieties are mined out.
