Happy Valentines Day!

Greetings Everyone,

I am writing to you from Tucson, Arizona. We are at the 2018 International Gem, Mineral and Fossil Show and it's in full swing. We're right in the middle of our shopping trip with just eleven more days to go. The weather is great this year all sunny and warm (82 today) so the show seems to be more crowded with people out and about, but there also seems to be more inventory to choose from, so that's a plus. We're doing our best to find everyone's special request so keep manifesting. Can't wait to bring home all our new finds (this trip will take 2 semi's to get it all home) and show you all our new treasures at our Tucson Truck Sale in March. Later this month we will be sending out our e-mail blast detailing all the new and exciting inventory we brought back so be sure and watch for that towards the end of the month.

Remember February is the month you get to show the ones you love how much they mean to you and Nature's Treasures has some of the best gifts to show just how much you care. Our gifts communicate how unique and special someone is and can last a

February's Birthstone

Amethyst

Purple Amethyst has been highly esteemed throughout the ages for its stunning beauty and legendary powers to stimulate and soothe the mind and emotions. The name Amethyst comes from the Greek amethystos, meaning "not intoxicated" as the stone is the color of wine and believed to protect against drunkenness. It is a semi-precious stone in today's classifications, but to the ancients it was a "Gem of Fire," a Precious Stone worth, at times in history, as much as a Diamond. It has always been associated with February, the

Austin Agates Exclusive

This variety of agate is known as the New River Crossing Condor Agate from Argentina. Nature's Treasures is the sole distributor for this mostly mined-out agate. It is known for its vibrantly colored alternating bands of warm and cool colors.

A Note on Agates:

Silica is the key component to agate formation since it belongs to the quartz family made up of SiO₂. Because of their beauty and durability, agates have been used since the Neolithic as tools, jewelry, tableware and decor for thousands of years. Although agate has been used for ages, new world agates have only been mined recently and many varieties are mined out.

Avery is a native Austinite, born and raised, that attended Austin High School and ACC. Outside of being part of the Front Counter Team, he composes and produces music and enjoys cooking. He enjoys learning new facets of Nature's Treasures, but aspires to own his own sustainable culinary business and make music. "Art is our purpose or rather tool of expression!"

How to Rock Love

By Folade Speaks

I find the best way to love someone is not to change them, but instead, help them reveal the greatest version of themselves. ~ Steve Maraboli
I create most of the content for the digital sign out front of Nature's Treasures. Often I pull a monthly Oracle card for each astrological sign. In January, I pulled a card for Global Humanity Theme for 2018. The

Sacred Geometry Activations Oracle Deck card jumped out... COMPASSION! When I searched quotes about compassion, I found the quote above by Steve Maraboli. In searching for a quote on compassion, therein is Love.

In an interview about love vs attachment, Buddhist author, Tenzing Paloma Jetsunma reminds us, Genuine Love says, I love you, therefore I want you to be happy. If that includes me, great, if not, I just want your happiness. Genuine Love is holding very gently, nurturing but allowing things to flow. Read more below.

Hospice of South Texas

Dornburg Center of Compassion, Where Every Moment Matters

In 1985, a group of concerned healthcare professionals and a handful of community volunteers met and established Hospice of South Texas (HoST), the crossroads only non-profit, community-based hospice. Their bold vision was to provide a better way to care for the most ill and vulnerable in the South Texas area with any diagnosis, such as heart disease, lung disease, ALS, cancer, Alzheimer's disease or AIDS. Hospice of South Texas is committed to providing the very best care, compassion, comfort and dignity to its region's most vulnerable patients...because they believe that every moment matters.

The Dornburg Center of Compassion Inpatient Center opened in May 2017, where the HoST team provides crisis care to patients, helping them live in comfort, surrounded by family and friends in a beautiful, home-like setting. The American Craftsman architectural style, furnishings, landscaping and artwork were selected to provide familiar, comfortable and tranquil settings. The volunteer art committee spent several years gradually acquiring remarkable works of art in all forms. This life-affirming artwork helps to restore balance

and harmony to the bodies, minds and spirits of patients, their families, staff members and volunteers.

Recently, Nature's Treasures of Texas made a substantial in-kind contribution which allowed HoST to acquire the split citrine geode whose open shape and color resembles a sparkling monarch butterfly. The large Brazilian geode was placed next to the donor book in the Great Room, a fitting position of honor as the butterfly is the international symbol of Hospice. On the donor recognition plaque, this inspiring quote of Anne O'Shaughnessy's is also inscribed: We must believe in the journey we take to the boundaries of our shadows. Then, breath held close, eyes squeezed shut, trust that once we've crossed, we will be granted glorious wings.
