

Rick Reeder – Selected LinkedIn Recommendations

Max Thoene, Chief Operations Officer, Abrigo

Rick Reeder is the consummate professional. Technically skilled, process oriented, and "business smart"...he is the complete package when it comes to technology leadership and "get it done" type scenarios. I worked with him directly and was very impressed at how fast he came into the organization and made immediate impacts to one of our largest, most significant and strategic projects through his skill, leadership and commitment to excellence. Beyond the standard skills, what makes him so valuable to an organization is his unmatched interpersonal skills...he develops and maintains relationships naturally and easily, all based on trust. Rick is a high-value executive leader that would be a star on any team.

Michael Craigue, Chief of Staff – Cybersecurity, Dell Technologies

It is my pleasure to recommend Rick. He has the talent and charisma necessary to manage effectively, whether his organization is responsible for technology delivery, or requires partnership with technology teams to meet business objectives. In the decade I've worked with and known Rick, he has demonstrated strong leadership, tenacity, strategic agility, and ethical maturity. He's on a very short list of individuals I trust completely.

Nancy Scocca-Hall, Senior Manager Global Program Management Office, General Motors

I have had the good fortune to work with Rick as a peer, and also as a direct report. Rick and I worked together on Professional Services and IT related large scale and complex projects. Rick is a tremendous leader and always focused on delivering the end result. He is calm, cool and collected during times of extreme pressure and is a inspiration to all who have had the good fortune to work for him or with him. Rick has a strong sense of community and is truly making an impact on the world we live in. It truly has been a honor and a privilege to work with Rick!

Ron Nourzad, Senior Manager Urban Mobility Product Development, General Motors

Rick is truly one of the best leaders I've had the pleasure of working with over the years. He is passionate about his work and knows how to market whatever product he is working on. Rick has many years of technical IT knowledge but what makes him unique is the business savvy that he skillfully leverages to make IT programs extremely successful. One of Rick's many amazing qualities is his ability to network. He is a true connector and this is what makes him a successful leader. Whether he is working on developing and marketing the next commercial IT solution, managing a multi-million dollar contact center, or running a non-profit organization, his ability to bring the best people to work together is what makes Rick a success. He is undoubtedly one of the most effective technology leaders I've worked with and he would be a tremendous asset to any organization, large or small.

Kathleen Lucente, Founder and President, RedFan Communications

At Komen Austin Rick was executive director of the board. He is an incredibly thoughtful leader in overseeing the board, taking in feedback and keeping things on track. His leadership was inspiring and ego-free which is essential in running a board and running it well. He is a natural networker and was always bringing wonderful connections and commitments to the board. We will miss him at Komen Austin but we know his commitment to giving back in these type of board leadership roles will continue and he will make an amazing impact in anything he touches or leads.

John Kidenda, Director of Software Platforms, PowerGen Renewable Energy

Rick is the most driven individual I know, he has the capacity to not only get excited about great ideas that have the potential to really make a big impact on the world around him but also to take an active leading role in making sure those ideas come to fruition by taking concrete steps towards their realization and investing himself entirely in the process. When Rick commits to an idea he commits fully and will see it through to completion. This is a very admirable quality and has been essential in keeping the RSC Foundation on task and holding it together through difficult time. I fully endorse Rick and his work.

Courtney Hicks-Dickey, General Counsel, Dosh

As President of the Board of Directors for the Austin Affiliate of Susan G. Komen, Rick was extremely dedicated to serving the best interests of the organization and passionate about the cause we were all working for. His energy and enthusiasm helped to recruit new directors to the BOD. In a time when the Affiliate faced PR issues due to decisions made at Komen HQ, he did not hesitate to approach controversial topics and fight to keep the public focused on what mattered most: getting essential care to women and men battling breast cancer in our community. He is a leader in every sense of the word and I was honored to work with him.

Ashley Doran, Founder and Principal, Broadthinking Consulting

I served alongside Rick as a board member at Komen. Within this diverse group, his demonstrated values, commitment and relaxed personal style elicited trust among his colleagues - critical during times of divisiveness. Rick was often "the voice of reason" - and as such was admired and respected for his opinions and his ability to roll up his sleeves and actively do the heavy lifting.
