

Equipment Financing

American Equipment has teamed up with Lendspark to offer flexible financing and leasing programs. Lendspark provides our customer base with competitive rates on our full range of equipment. Soft cost bundling is also available, so you can roll in technology, installation, training and support costs - a total financing package. Financing is available for equipment ranging in cost from as little as \$10,000.00 and up to \$5,000,000.00.

Why finance outside of your bank or senior secured lender

Ease of application process. Prompt approvals. Less stringent credit parameters than bank financing. In fact, for costs under \$200,000.00, businesses with 5 plus years operating history only need to complete a short credit application for consideration (no need to submit financial statements). Lendspark financing and leasing programs offer flexible payment terms, so you'll acquire the products and equipment you need now while meeting capital expense budgets while keeping bank lines open for inventory, payroll and business expansion. In addition, because the credit approval process takes only a few days we are able to place your order quickly!

Flexible alternatives

Financing Minimal down payment with terms ranging from 2 to 5 years.

Capital leases Equal monthly payments with a \$1.00 end of term buyout.

Operating leases Return the equipment for credit at the end of the term or continue leasing.

Deferred payments Allows you to begin using equipment before you've paid anything.

How it works

Work with your American Equipment Specialist to specify the products you need. Then use the attached application to apply here or download an application online from Lendspark. With approved financing in place, we will often put you in queue to ensure prompt delivery schedule before customers who don't have their financing in place.

Would you like to learn more?

Whether you have questions regarding financing programs, the application process, or specifics relating to a particular situation, Steve Overlock of Lendspark is happy to assist you. For over twenty years he has helped customers across the country acquire the equipment they require to remain competitive.
