Insurance documentation for Hospital Bed

A hospital bed is covered when 1 or more of the criteria below are met.

- ★ The patient has a medical condition that requires body positioning in ways an ordinary bed can not resolve.
- ★ The patient requires the head of the bed to be elevated more than 30 degrees due to CHF, COPD, or aspiration problems.

INSURANCE REQUIRES 1 or more IN OFFICE NOTES
(if not in notes insurance will not cover)

- ★ *This can not be copied and pasted into the note and not accepted on the script or letterhead per Medicare.*
