

# NATURAL AUSTIN SERIES

EVERY FRIDAY AT 1:30 PM IN TOWN HALL

## Belmont Village Senior Living

4310 Bee Cave Road • West Lake Hills, Texas 78746

### June 1 – Backyard Birds with Chris Gunter

Join the Travis Audubon Society and Chris Gunter to learn fun facts about our usual backyard birds and how to identify them.

### June 8 – Planet Earth II: Islands

Enjoy a video presentation of Planet Earth II: Islands. Watch pygmy sloths, komodo dragons and other strange and resourceful creatures navigate the unique challenges of island life.

### June 15 – Hummingbirds of Austin with Cindy Sperry

Did you know that nine different species of hummingbird can be found in Travis County? Join Travis Audubon Society speaker Cindy Sperry to learn about the unique biology of these amazing birds and how to attract them.

### June 22 – Bug Biology with Valerie Bugh

This program explores the growth, anatomy, diversity and life histories of insects and other arthropods through colorful close-up photography.

### June 29 – Wild Basin Wilderness with Barbara Dugelby

This presentation explores the research and discoveries found throughout the 40+ year lifespan of the Wild Basin Wilderness preserve and its relevance to the Austin community.

RSVP to Concierge at 512-347-1700.
