

### Little Coders / Ages 5-7

Campers will develop computational thinking skills, foster creativity and have fun coding! This camp features a blend of connected and "unplugged" activities to keep campers engaged. Kids will create their own interactive story or computer game!

<b>Half-Day Camps:</b>	Week of June 26th	Mon-Fri	1pm-4pm	<del>\$269</del> <b>\$249</b>
	Week of July 17th	Mon-Fri	1pm-4pm	<del>\$269</del> <b>\$249</b>
<b>Full-Day Camp:</b>	<b>Week of July 24th</b>	<b>Mon-Fri</b>	<b>9am-4pm</b>	<del>\$419</del> <b>\$379</b>

### Game Development - Beginner through Advanced / Ages 8-12

Tech-savvy instructors will introduce students to core coding concepts at the heart of computer science and guide small groups of campers (max. 8) in creating both an interactive story and a video game of their own using Scratch!

<b>Half-Day Camp:</b>	Week of July 17th	Mon-Fri	9am-12pm	<del>\$269</del> <b>\$249</b>
<b>Full-Day Camp:</b>	<b>Week of June 26th</b>	<b>Mon-Fri</b>	<b>9am-4pm</b>	<del>\$419</del> <b>\$379</b>

### Minecraft Modding / Ages 8-16

Calling all Minecraft players! Each camper will be given access to their own private Minecraft server where they will customize the game by coding mods, items, environments, non-playable characters - and more!

**\*Camp price includes 3-week subscription that can be extended.**

<b>Half-Day Camps:</b>	Week of June 26th	Mon-Fri	9am-12pm	<del>\$285</del> <b>\$265</b>
	Week of July 24th	Mon-Fri	1pm-4pm	<del>\$285</del> <b>\$265</b>
<b>Full-Day Camp:</b>	<b>Week of July 17th</b>	<b>Mon-Fri</b>	<b>9am-4pm</b>	<del>\$429</del> <b>\$389</b>

### Python / Ages 10-16

Is your emerging coder ready to learn a professional programming language? Python is a very versatile tool that is widely used from medical research to applications at NASA. Campers will build several projects, including games, data analysis or web scraping.

<b>Half-Day Camp:</b>	Week of July 24th	Mon-Fri	9am-12pm	<del>\$269</del> <b>\$249</b>

### About Coding with Kids

Coding with Kids is a multi-state computer programming academy for ages 5-16. Our mission is to inspire future generations to create software solutions for greater good. In addition to summer camps, we also offer year-round after-school classes.
