 Request for Offer DIR-TSO-TMP-266

Instructions:

A representative sample of services is provided in the tables below. Vendors must offer ONLY one (1) specific price for each service listed. This is a representative sample only for the purposes of this RFO and evaluation process.

PLEASE NOTE: All prices quoted to Customers shall include the .75% administrative fee.

MaaS Sub-Category/Descriptor	Service Description	Service Number (if applicable)	MSRP	DIR Customer Discount	DIR Customer Price	DIR Admin Fee	DIR Final Customer Price (Includes Admin Fee)
EXAMPLE:							
			\$ 300.00	10%	\$ 270.00	0.75%	\$272.03
Service Monitoring as a Service - Per month, per application	Using the best of breed in Application Performance Monitoring tooling, Clear Measure monitors the health of large distributed software systems including availability of the service to customers, the infrastructure running the service, and code level and external dependencies and vendors. When any SLA is in danger of not being met, automatic altering is triggered and sent to all required stakeholders.		\$ 550.00	15%	\$ 467.50	0.75%	\$471.01
Continuous Integration as a Service - Configuration Set Up flat fee	By providing and managing a platform to run unit, integration and acceptance testing, Clear Measure ensures multiple work streams from many different developer teams integrate seamlessly into the system.		\$22,000	15%	\$ 18,700.00	0.75%	\$18,840.25
Continuous Integration as a Service - per month, per custom application	See above		\$ 1,250.00	15%	\$ 1,062.50	0.75%	\$1,070.47
Load Testing as a Service - Custom set-up fee based on system size and complexity	Each system is thoroughly analyzed to detail the behavior of users of a system to create a suite of test cases that replicate real world interactions. These test cases are then used in the load testing platform which is powered by dynamic scaling hardware to produce from 1 to virtually an unlimited number of test users. While testing, Clear Measure monitors the system to identify performance bottle necks from network infrastructure down to specific lines of code. The result of these tests culminate in detailed reports and recommendations for improving performance and system throughput. Once created, these tests can be run as needed to track system improvements.			15%	\$ -	0.75%	
Load Testing as a Service - Per complete test.	See above		\$ 27,500.00	15%	\$ 23,375.00	0.75%	\$23,550.31
Performance Testing as a Service - Custom set-up fee based on system size and complexity	Clear Measure collaborates with stakeholders to identify crucial pathways in a software system that demand particular performance SLAs. Once identified, Clear Measure creates a suite of performance tests that report on the responsiveness of each workflow and improvement over time and alerts stakeholders when the established SLA's are breached.			15%	\$ -		
Performance Testing as a Service - per month	See above		\$ 5,500.00	15%	\$ 4,675.00	0.75%	\$4,710.06
