

1

At NuCara Pharmacy we take your eye health very seriously. Your provider has sent a prescription to us for compounded pre- and post-op eye drops. Alternatively, your provider may have given you a written prescription. You will need to present this to the pharmacy directly for processing.

NuCara Pharmacy is located at:

**6111 Burnet Rd
Austin, TX 78757
www.nucara.com/austin**

2

If your provider has sent the prescription directly to the pharmacy, you can expect a phone call from the pharmacy within the next 24 hours. At that time, NuCara will complete your profile, collect payment information, and begin processing the prescription. If you do not hear from the pharmacy within 24 hours,

Please call NuCara at:

512.454.9923 ext. 1

3

Your prescription will typically be ready for pick up the same day as it is written if you choose to obtain it from the pharmacy. You may also choose to have the prescription shipped to you at no additional charge. A pharmacist will be made available for counseling either during the initial phone call or upon pick up at NuCara. Please refer to the attached directions for how and when to use the drops that have been dispensed to you. If your appointment has been scheduled for a future date, the pharmacy will fill and ship your prescription typically 10-14 days before your procedure. If NuCara has collected payment information from you ahead of time, you will receive a receipt with the medication. If NuCara has not been able to contact you, you will receive an invoice with the medication.

We thank you for your patronage. Please call us with any questions or concerns.
