

1

At NuCara Pharmacy we take eye health very seriously. Your provider has sent a prescription to us for compounded atropine eye drops. Alternatively, your provider may have given you a written prescription. You will need to present this to the pharmacy directly for processing:

NuCara Pharmacy is located at:

6111 Burnet Rd

Austin, TX 78757

www.nucara.com/austin

2

If your provider has sent the prescription directly to the pharmacy, you can expect a phone call from the pharmacy within the next 24 hours. At that time, NuCara will complete your profile, collect payment information, and begin processing the prescription. If you do not hear from the pharmacy within 24 hours, please call **NuCara** at:

512.454.9923 ext: 5

3

Your prescription will typically be ready for pick up the same day. You may also choose to have the prescription shipped to you at no additional charge. A pharmacist will be made available for counseling either during the initial phone call or upon pick up at NuCara.

We look forward to serving your family's needs!
