THBI ANNOUNCES FOUNDER/CEO OF CUREDUCHENNE, DEBRA MILLER, AS 2019 LUMINARY AWARD HONOREE

AUSTIN, TX – January 22, 2019 - The Texas Healthcare and Bioscience Institute (THBI) has announced that founder and CEO of CureDuchenne, Debra Miller, will be a recipient of the 2019 Luminary Awards. The awards will be presented at the THBI Annual Luminary Dinner on the evening of February 11, 2019 at the Stephen F. Austin Hotel.

The Luminary Awards are presented to legislators, industry leaders, and advocates who have made a substantial impact on the life sciences community through their dedication to bettering the lives of Texas patients. After her son Hawken was diagnosed with Duchenne muscular dystrophy, Debra and her husband founded CureDuchenne to facilitate and fund research about this rare, potentially fatal disease while offering a supportive community to patients and their families.

“Rare diseases are a challenge that requires exceptional advocates, and today we recognize an honoree who has risen to that challenge and given hope to thousands living with Duchenne muscular dystrophy,” said THBI President and CEO, Tom Kowalski. “We are honored to celebrate the work of Debra Miller and thank her for her tireless leadership at CureDuchenne.”

The THBI Luminary Award dinner will be part of the sixth annual THBI Summit. The event is hosted at the Stephen F. Austin Hotel on February 11 and will be followed by Life Science Capitol Day on February 12. The Summit is THBI’s largest fundraiser each year, providing educational discussions to inform industry leaders, legislators, and staff on issues affecting the life science industry. More information can be found here: <https://www.thbi.com/events/summit-and-luminary-dinner>.

PhRMA is the presenting sponsor of the THBI Summit & Luminary Dinner. THBI would also like to thank Johnson & Johnson, Novartis, Merck, Pfizer, Texas State University, Amgen, VWR, and UT Health San Antonio for their sponsorship.

About THBI

The Texas Healthcare & Bioscience Institute (THBI) is the Texas policy voice for healthcare and bioscience and the only provider of statewide resources to its members and the industry. With a focus on using advocacy as a tool to create a more favorable environment for the life sciences, THBI works with government and industry leaders to attract new participants in the life sciences to Texas and to promote effective government legislation on behalf of the industry. The Texas Healthcare and Bioscience Institute is a nonprofit 501(c)(6) organization.
