

WOUND CARE REFERRAL GUIDELINES FOR SANTYL AND REGRANEX ORDERS

1. Please use the provided Rexall Santyl or Regranex Order Forms and be sure to include wound measurements and location.
2. All orders must be signed by the prescriber. Signatures may be handwritten or an accompanying physician order that is electronically signed from an EHR system can be accepted.
3. Orders for Santyl in excess of 2,400 grams should be accompanied by medical records / chart notes indicating that the patient was seen by the prescribing physician for assessment and treatment of the wound(s) within 30 days prior to the prescription date.
4. In the event that the insurance company requires a prior authorization, we will notify the referral source accordingly.
5. All orders should be faxed to Dania Rexall Pharmacy at our dedicated wound care fax number (954) 304-9703.
6. Any calls with questions or to provide additional information should be made to (954) 921-4665.

We appreciate your referrals and the value of your time. By collecting complete information at the time of the referral we hope to minimize the need for future requests.
