

WHAT IS THE WORKSCAPE DESIGNS TEST FIT TOOL?

The **Workscope Designs Test Fit Tool** is an interior design offering that takes your vision for a new office, along with an empty floorplan, and converts it in to a workable office solution that can be delivered on time and under budget, in the form of a completed office layout. And since the modern working world operates quickly, so does the **Test Fit Tool**, as it will turn around your layout designs based on your demands in under 48 hours.

Using the **Test Fit Tool**, our designers will take the information gathered from you upon initial consultation and create a test fit floorplan that highlights:

Furniture Choices

Furniture Layout

Colors and Finishes

Conference/Training Rooms

Reception/Lounge Areas

Quiet/Focus Areas

Data/Power Access and Locations

Walkways

Wall Placement

THE WORKSCAPE DESIGNS TEST FIT TOOL

"It's a good fit. Try it on."

ARE YOU PLANNING A NEW OFFICE SPACE?

Whether you plan on redesigning your existing office or moving to a new space altogether, the decision to create a new work environment for your employees comes with a lot of big decisions.

Will the new office accommodate all of your company's needs from an operational standpoint?

Will the new office help nurture the company culture you are trying to create?

What is the maximum headcount you can fit in to the new office, and will you be able to grow in the future, if needed?

Most often, the person responsible for making these decisions within a company has limited experience designing a new office, and could use some extra help to make sure their vision will become a reality. That's where the **Workspace Designs Test Fit Tool** can be a big help.

HOW CAN THE WORKSPACE DESIGNS TEST FIT TOOL HELP YOUR COMPANY

The **Workspace Designs Test Fit Tool** gives you the ability to fully visualize your completed office space, to ensure that all your wants and needs are satisfied. What's more, if the initial design requires alterations, it can be run through the **Test Fit Tool** process again, and a new, revised layout will be generated in under 48 hours.

The **Test Fit Tool** also speeds up the overall project timeline by specifying all the furniture and design elements your project requires, so that once we receive final approval from you, we can order on the spot, reducing days to delivery.

All this comes together to create an expedited design process, allowing you to make decisions quicker, and get back to the business of running your business.
