

Choice Critical Care is ideally located to service patients and facilities in South Central PA and Northern Maryland.

Our staff provides extensive IV and nutritional therapy for patients residing in a long term care facility or in the comfort of their own home.

Choice Critical Care has been serving the needs of the long term care community since 1979, and currently provides pharmacy services for more than twenty local nursing and residential treatment facilities.

Choice Critical Care is part of **Choice Health Services**, a healthcare network dedicated to caring for people like family.

Medication Dispensing Systems for Nursing Facilities

Punch Cards

This traditional system offers the convenience of unit dose or multi-pack for patient medications. Dosing instructions are included on a label attached to the top of each card.

Medications are packaged in plastic trays and organized by day and time of administration. Dosing instructions are included on a label visible through the bottom.

Medisets

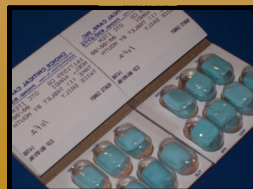

Doc-U-Dose

Medications are packaged in a series of sealed envelopes which provides convenient and safe medication dispensing. Envelopes are color-coded by the administration time with the front explaining each dosage. To make dispensing easier the reverse side of each card is clear promoting accurate identification and counting of a resident's medications. This system is \$0.19 per day/patient utilizing this system.

Is a convenient and compact dispensing system that is offered as a 14 day punch card system. Dosing instructions are included on a label display on the top of each booklet.
