Aerial and Pole Marking

Wrap Around Markers

Identify ownership of pipes, cables, inner duct, or tubing with ACP's maintenance-free wrap around marking products.

- UV-stabilized print
- Permanently coiled
- .011 or .020 calendered vinyl material
- Sizes fit 1/4" to 4" cables
- Readable from all directions

| Part No. | Size | Description |
|----------|----------|-----------------------------|
| DN32 | 2"X 2" | 1/4" to 1/2" diameter cable |
| DN33 | 4"X 4" | 1/2" to 1" diameter cable |
| DN34 | 7"X 7" | 1" to 2" diameter cable |
| DN35 | 10"X 8" | 2" to 3" diameter cable |
| DN36 | 14"X 10" | 3" to 4" diameter cable |

Hang Around™ Markers

Quickly identify cables, fiber optic and CATV lines with ACP's UV stabilized Hang Around Marker. The marker is thermoformed to create a permanent coil that will always return to a coiled position.

- Same coiled technology as wrap around markers
- Additional flap hangs down for better visibility
- Printed on both sides

| Part No. | Size | Description |
|----------|------------|--------------------------|
| DN33HA | 2"X 6" | 1/2" x 1" diameter cable |
| DN34HA | 3 1/2"X 7" | 1" x 2" diameter cable |

Aerial and Pole Marking

Adjustable Panel Cable Markers

The Adjustable Panel Cable Marker (APCM) easily attaches, adjusts, and locks to the cable. There are currently more than 1 million of these markers identifying cable in the marketplace.

- Identifiable from the ground
- Single and double-sided options
- Reflective option for better visibility in low light conditions
- Standard colors: orange, yellow
- Custom blended Polytrope material

| Part No. | Panel Size | Diameter | Printable Area | Available Colors |
|----------|------------|--------------------------|-----------------|------------------|
| APCM4O | 4"X 2" | Fits 3/8 to 3/4 adjusted | 3 3/4" x 1 3/4" | Orange |
| APCM4Y | 4"X 2" | Fits 3/8 to 3/4 adjusted | 3 3/4" x 1 3/4" | Yellow |

Strand Cable Markers

The Strand Cable Marker (SSM) attaches to 1/4", 3/8", or 1/2" strand or cable. It can be attached from ground level using a strand marker attachment tool (#86SMT).

- Identifiable from the ground
- Single and double-sided options
- Reflective option for better visibility in low light conditions
- Standard colors: orange, yellow
- Custom blended Polytrope material

| Part No. | Panel Size | Diameter | Printable Area | Available Colors |
|----------|------------|----------|-----------------|------------------|
| SSM414O | 4"X 2" | Fits 1/4 | 3 3/4" x 1 3/4" | Orange |
| SSM438O | 4"X 2" | Fits 3/8 | 3 3/4" x 1 3/4" | Orange |
| SSM412O | 4"X 2" | Fits 1/2 | 3 3/4" x 1 3/4" | Orange |
| SSM414Y | 4"X 2" | Fits 1/4 | 3 3/4" x 1 3/4" | Yellow |
| SSM438Y | 4"X 2" | Fits 3/8 | 3 3/4" x 1 3/4" | Yellow |
| SSM412Y | 4"X 2" | Fits 1/2 | 3 3/4" x 1 3/4" | Yellow |

Aerial and Pole Marking

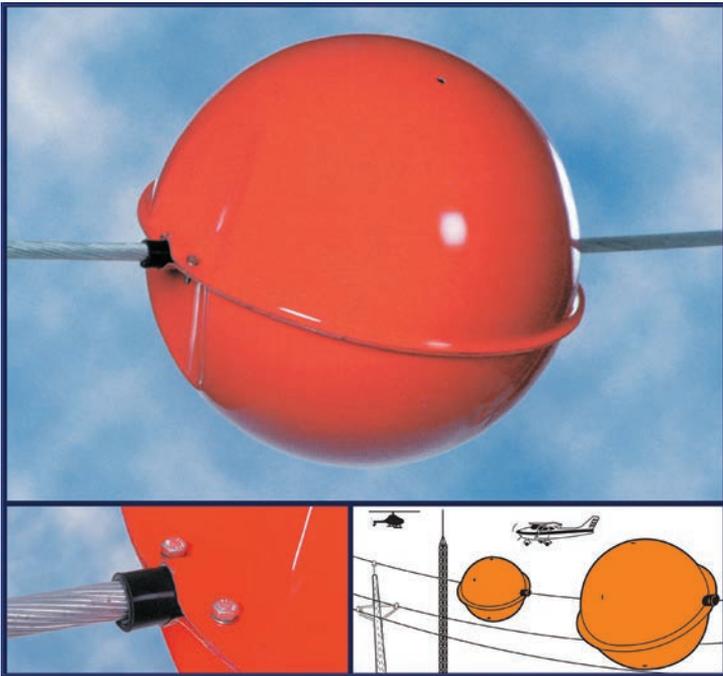

Bracketless Aerial Markers

Save time and money with the all-in-one bracketless aerial marker. There is no need to add plates. Simply use a hammer and ratchet to attached the marker to the integrated square post.

- Plate material is .080" aluminum
- Reflective materials increases visibility
- 1-to-4 digits can be printed on one convenient plate
- Takes up less storage space and costs less to ship
- Assembly time is vastly reduced

| Part No. | Description |
|----------|-------------------------------------|
| BAM1624 | 24" wide marker with square post |
| BAM1636 | 36" wide marker with square post |
| BAM1648 | 48" wide marker with 2 square posts |

Aerial and Pole Marking

Tana Wire Markers

Mark power, communication, and guy wires at airports, helicopter approach areas, river and canyon crossings, or overhead obstructions at construction sites.

- 20" markers meet FAA specifications
- Comprised of durable, fiberglass construction
- Choose from 12" or 20" markers

| Part No. | Description |
|----------|--|
| 47555 | 12" marker, fits wires up to 3/4" outside diameter |
| 47556 | 20" marker, fits wires up to 1" outside diameter |

Additional sizes available

Identity Pole Tag

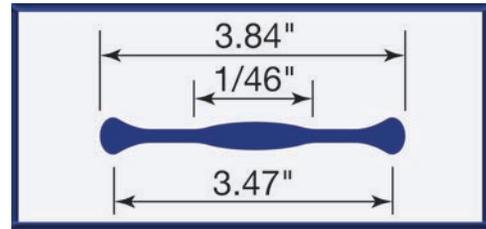

Easily locate your utility poles with reflective, bar coded labels from ACP.

- UV-stabilized, digital print for maximum durability
- Can be printed and packaged with consecutive numbers
- Great for identifying pole locations and inventory
- Optional: Includes Bar Code 39 or QR Codes
- Optional: Add reflective sheeting for low light conditions.

Underground Pipe and Cable Marking

Section View of Flexible Line Marker

Post Driver

Flexible Line Markers

Mark fiber optic cables, gas pipelines, petroleum pipelines, electric lines, water lines, sewer lines, and other buried utility lines with this UV-stabilized marker. Flexible Line Markers can also be used as highway delineators, boundary or trail markers.

- Fiberglass composite
- Easy one-person installation with a post driver (PN: D-375)
- Enhanced profile optimizes stability and allows for double-sided decal application
- Resistant to grass fires
- Add non-reflective, multi-color decal to brand your company and show ownership
- Add reflective decal for greater visibility
- Available colors: Orange, White, Yellow, Blue, Brown, Red, Purple
- Choose convenient direct print option, eliminating the need for a decal

Underground Pipe and Cable Marking

Poly-Dome™ Markers

Use this marker to provide 360° visibility to identify pipelines, fiber optic cables, and other underground utilities.

- Conforms to many Department of Transportation (DOT) regulations
- UV-stabilized, long-lasting print
- Add your company's logo and contact information
- Made of durable High Density Polyethylene (HDPE) material

| Part No. | Description |
|----------|-------------------------|
| PD6 | Poly-Dome, 6 ft. length |
| PD7 | Poly-Dome, 7 ft. length |
| PD8 | Poly-Dome, 8 ft. length |

Poly-Dome™ or Top Hat Test Stations

Locate cables and protect cathodic protection circuits with the Poly-Dome™ Test station.

- Station includes: terminal configuration, clear Lexan plate, up to 5 terminals included
- Be sure to mention your configuration needs when ordering
- Shorting straps are sold separately

| Part No. | Description |
|----------|------------------------------|
| PDTS* | Poly-Dome Test Station |
| THTS* | Top Hat Test Station |
| TSS | Nickel Plated Shorting Strap |

* Indicate required height

Underground Pipe and Cable Marking

Poly-Dome™ Quick Mount

Mount your Poly-Dome quickly and securely with the Poly-Dome Quick Mount Kit and a drive rivet.

- Kit includes: Poly-Dome, sleeve, and drive rivet
- Mounts to standard U-Channel or delineator posts
- Optional: Ask us for a quote on our large inventory of U-Channel posts!

| Part No. | Description |
|----------|------------------------|
| PDQM | Poly-Dome™ Quick Mount |

Wrap Around Signs and Decals

Identify pipelines, fiber optic cables, and other underground utilities with aluminum Wrap Around Signs that provide 360° visibility.

- Covers up old text due to change in ownership or contact information
- Choose reflective, multi-color Wrap Around Decals for added visibility.
- Optional: Ask us about 3.5" and 4.5" post caps to neatly finish your Wrap Around Signs!

| Part No. | Description |
|----------|-----------------------------|
| WAS6 | Wrap around sign, 6' length |
| WAS7 | Wrap around sign, 7' length |
| WAS8 | Wrap around sign, 8' length |

Signs and Decals

All-in-One Signs

Faded and worn signage can pose safety and personal injury risks. Maintain your OSHA compliance by updating your signs today. This design helps make safety sign development and maintenance easier.

Great for:

- Plant site entrances
- Utility site entrances
- Construction site entrances
- You specify the size and design. We'll print and ship the sign!
- Reflective background available and recommended

Letter and Number Kits

ACP's versatile letter and number kits are highly visible and help increase safety. The digit decals can be purchased in packs of 25 or as an entire kit.

- Available in 5 standard sizes
- Individual characters available 25 per pack
- Available in reflective and non-reflective

| Part No. | Size | Optimum Visibility | Packaging |
|----------|-----------------|--------------------|-------------------------|
| DN50* | 1/2" x 1/2" | 10 ft. or less | 100 characters per page |
| DN55* | 1 1/2" x 1" | 30 ft. or less | 25 per poly pack |
| DN60* | 2" x 1 1/2" | 50 ft. or less | 25 per poly pack |
| DN62* | 2 5/8" x 1 3/4" | 65 ft. or less | 25 per poly pack |
| DN65* | 3" x 2 1/8" | 75 ft. or less | 25 per poly pack |

*Indicate background color

Custom Decals

- Great for route marking and utility identification and ownership
- Available in reflective and non-reflective sheeting
- Order individual decals to add to flexible line markers
- Optional: Consider decals to update phone numbers, company names, and other information that may be outdated

Posts and Hardware

Posts and Hardware

Steel Posts: Galvanized U-Channel, Coated U-Channel, and Square Posts.

Choose the best steel post for your application:

U-Channel Posts

Our most popular posts, U-Channel, offer unmatched strength and versatility. U-Channel posts make installation quick and easy. They are available galvanized or green. Other colors and lengths are available with order minimums. Just ask us!

- Pre-punched $\frac{3}{8}$ " mounting holes on 1" centers
- Quick and easy installation

| Part No. | Description |
|----------|------------------------------|
| UC10GLV | 10' Post, 2lb/ft, Galvanized |
| UC10GR | 10' Post, 2lb/ft, Green |
| UC8GLV | 8' Post, 2lb/ft, Galvanized |
| UC8GR | 8' Post, 2lb/ft, Green |

| Part No. | Description |
|----------|----------------------------------|
| DL6.5GLV | 6.5' Post, 1.12lb/ft, Galvanized |
| DL6GR | 6' Post, 1.12lb/ft, Green |
| DL6YLW | 6' Post, 1.12lb/ft, Yellow |

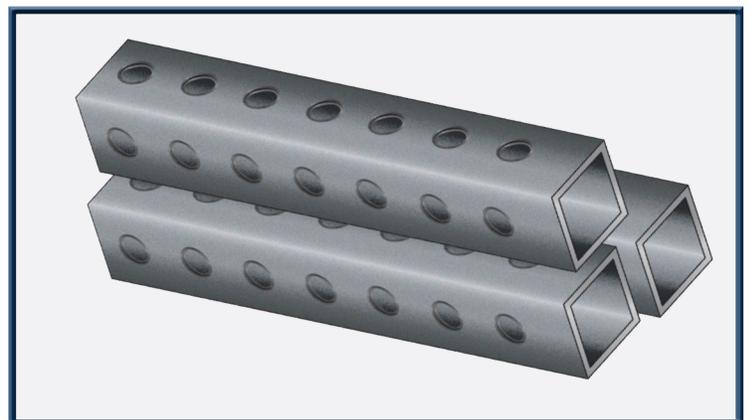

**Other sizes and colors available on request.*

Square Posts

Use square posts for maximum visibility as they allow for mounting on all four sides. Made from galvanized .14-gauge steel, square posts can be installed in concrete, soil, gravel, and asphalt.

- Unmatched strength and versatility

| Part No. | Description |
|----------|-------------------------------------|
| 03287 | 8' x 1 $\frac{3}{4}$ " Square Post |
| 03289 | 10' x 1 $\frac{3}{4}$ " Square Post |
| 03212 | 12' x 1 $\frac{3}{4}$ " Square Post |

Cable Tagging Products

Color Tie Tags

Use these colorful tags to make information highly visible and to identify ownership indoors or out. The tag's $\frac{7}{8}$ " x $\frac{1}{2}$ " white panel increases visibility of the printed or written message.

- $\frac{7}{8}$ " x $\frac{1}{8}$ " white panel
- RoHS and REACH compliant
- Preprinted or blank
- Weather-resistant
- Packaging: 10 tags per package; 1 color per package
- Optional: **Add a 12-pack of Rain or Shine™ pens to your order!** Or ask us to custom print the tags for you.

| Part No. | Description |
|-----------|--------------------------------------|
| TAG8410 | Tags - 10 per package |
| TAG8410CP | Custom Printed Tags - 10 per package |

Cable Tags

Use these durable tags to label and identify bundles of cables and wires.

- Choose any color and text combination
- Available Size: $1\frac{3}{4}$ " x $3\frac{5}{8}$ "
- Standard Cable Tag Material: .020 calendered vinyl
- Packaging: 100 tags and 200 8" cable ties per bag
- Optional: **Add a 12-pack of Rain or Shine™ pens to your order!** Or ask us to custom print the tags for you.

| Part No. | Description |
|----------|---|
| CT100 | $1\frac{3}{4}$ " x $3\frac{7}{8}$ " Cable Tag |
| CT150 | $1\frac{3}{4}$ " x $5\frac{3}{4}$ " Cable Tag |

Cable Tagging Products

Coverall Tags

Use these protective tags to label and identify cables and wires.

- Includes a clear self-sealing flap that protects written information
- Standard Colors: Red, Orange, Yellow, Blue, Green, White
- Standard Coverall Tag Material: .020 calendered vinyl
- Preprinted or Blank
- Packaging: 25 tags and 50 8" cable ties per bag
- Optional: Add a 12-pack of Rain or Shine™ pens to your order! Or ask us to custom print the tags for you.

| Part No. | Legend | Description |
|----------------|-------------------|-------------|
| VCT200 (color) | Fiber Optic Cable | 2" x 3 ½" |
| VCT201 (color) | Telephone Cable | 2" x 3 ½" |
| VCT202 (color) | Data Cable | 2" x 3 ½" |
| VCT203R (red) | Power Cable | 2" x 3 ½" |

Blank ID Tags

These versatile tags come in a wide array of colors to help identify cables and wires with your own personal message.

- Standard Tag Material: .020 calendered vinyl
- Packaging: 100 tags (cable ties are sold separately)
- Optional: Add a 12-pack of Rain or Shine™ pens to your order! Or ask us to custom print the tags for you.

| Part No. | Description |
|----------|---|
| ID225 | 2" x 2 ½" ID. Tag - .020 calendered vinyl |
| NYTIES | 8' long Black Ties in packs of 100 |
| ID225WL | Tag with overlay |
| ID225WT | Tag with ties |

Rain or Shine™ Pens

Write on your cable tagging products with ACP's proprietary Rain or Shine Pens. These markers, made by Sharpie® Markers especially for ACP, utilize an industrial grade ink for long-lasting readability.

- Available Sizes: Fine Point or Extra Fine Point
- Packaging: Sold in packs of 12

| Part No. | Description |
|------------|-----------------------------------|
| PTM100 FP | Fine Point Marker - 12 pack |
| PTM100 EFP | Extra Fine Point Marker - 12 pack |

Cable Tagging Products

Ground Wire Tags

Use these durable tags to identify ground connections that provide a warning to avoid removal or disconnection.

- Available Size: 1 1/2" x 3"
- Standard Tag Material: .016 polyethylene
- Packaging: 500 tags per box
- Choose from multiple colors and text
- Optional: Ask us to print these tags with your own custom message.

| Part No. | Description |
|----------|--|
| GWTORG | 1 1/2" x 3" Orange Ground Wire Tag - .016 Poly |
| GWTGRN | 1 1/2" x 3" Green Ground Wire Tag - .016 Poly |

SlipLoc Markers

Made from thermoplastic elastomer (TPE), the SlipLoc Cable Marker (SLM) fits cables up to 5/16" diameter, which includes most computer, coaxial, premises telephone, and electric cables. The SlipLoc closes and locks without having to disconnect cables, saving time and costly disconnects. Ideal for tagging and labeling cables on premises.

- Available Sizes: 3/8" or 1" preprinted
- Standard Colors: Orange or Yellow
- 1" SlipLoc Marker is ideal for identifying cable type or ownership

3/8" SlipLoc Markers

| Part No. | Size | Diameter | Printable Area | Available Colors |
|----------|-----------|-----------------------------------|----------------------------|------------------|
| SLM38Y | 3/8" wide | Fits up to 5/16" (RG 59, 6 and 7) | Preprinted with 0-9 or A-Z | Yellow |

Fiber Splice Sleeves

Fiber Splice Protection Sleeves

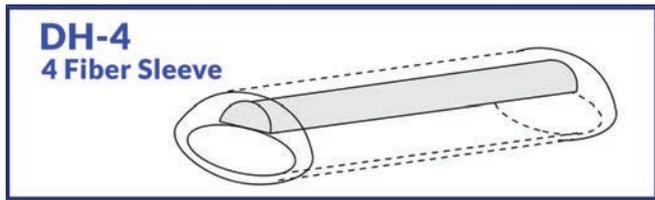

ACP has manufactured and distributed fiber splice protection sleeves since the company's inception. These small but important sleeves are used in the fiber optic industry. ACP's fiber splice sleeves are made in the U.S.A. and have been used all over the world. They work in most fiber splice sleeve ovens.

- Tested and approved
- Works in most splice sleeve ovens
- Tapered ends guarantee that sleeve components will stay intact
- Stainless steel rod fully deburred
- Don't see what you're looking for here? Just ask us, we can do special and custom orders to meet your needs!

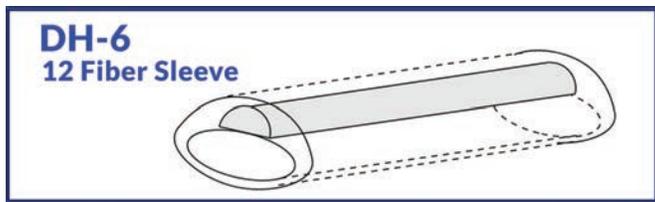

| Part No. | Description |
|------------|---|
| DH160 | Fiber Splice Sleeve, 60 mm |
| DH160 Slim | Smaller shrunk shrink O.D. to fit Tyco Organizers |
| DH1S50S | Protection Sleeve, 2.4 mm diameter (slims) |
| DH140 | Fiber Splice Sleeve, 40 mm |
| DH140 Slim | Smaller shrunk size to fit Tyco organizers |
| DH125 Slim | Fiber Splice Protection Sleeves, 25mm, (slims) |

Flush and Street Marking

Crystal Cap™ Markers

Avoid the time-consuming mess of spray paint and stencils. Identify your network with Crystal Cap Urethane Domed Markers. These multi-color markers are printed on .030 vinyl and a polyurethane dome is applied on the top to protect it from scuffs and scratches.

- Great for marking utility lines and potentially dangerous areas when sign posts are not convenient or permissible
- Can withstand years of weather and traffic
- 10-year warranty (does not include snow plow damage)
- Can be applied with Sikaflex® adhesive (10.3 oz. tube sold separately) or Butyl adhesive pads (sold separately) on smooth surfaces
- Adhesive must be evenly applied so that no liquid can get below the surface of the marker. Sikaflex® is recommended for rough or bumpy surfaces.

Storm Drain Markers

Use Storm Drain Markers to educate the public on how to keep water sources clean and free of debris. Storm Drain Markers help promote city and town beautification.

- Prevent water contamination by identifying storm drains
- Can withstand years of weather and traffic
- 10-year warranty

| Part No. | Description |
|----------|--|
| CC2 | 2" round Crystal Cap™ Marker |
| CC23 | 2"x 3" oval Crystal Cap™ Marker |
| CC3 | 3" round Crystal Cap™ Marker |
| CC378 | 3 7/8" round Crystal Cap™ Marker |
| SIKA11 | 10.3 oz. caulk tube Sikaflex® |

Detectable and Non-Detectable Warning Tape

Detectable Tape

Identify your pipeline and electric networks and avoid costly digging mistakes with durable utility marking tapes.

- Non-detectable tape is comprised of polyethylene in various thicknesses with lengths up to 6,000 feet
- Excellent elasticity allowing for a flexible stretch
- Detectable tape is comprised of foil material making it able to be located with a metal detector
- Woven tape available
- Note: 6 mil tape is recommended for application with a plow

Non-detectable Tape

Safety Cones and Collapsible Safety Cones

ACP's traffic and safety cones are 100% PVC injection molded, stack well, and have specially designed cleated bases that grip the road. Use these brilliantly colored cones to create a protective barrier for people and property.

If you're short on space, consider collapsible safety cones for non-traffic areas. Each cone in the set comes with a heavy 8 pound rubber base and meets NFPA and MUTCD standards. Set of 5 cones comes with a free carrying case.

- Set of 5 collapsible cones
- Heavy rubber base - weighs 8 lbs.
- Meets NFPA and MUTCD standards
- Ideal for utility applications

| Part No. | Description |
|------------|--|
| 472917 | 28" Collapsible Safety Cone |
| RS70032M64 | 28" Orange Cones with reflective collars |

Roll-up Signs and Stands

Use tear-resistant roll-up signs to alert traffic of construction areas or places where crews are working. There are several standard sign legends available. Custom wording is available with a set-up fee.

- Tear-resistant signs with injection-molded corner pockets for added strength
- Overlay patches attach with Velcro®
- Order reflective signs for greater visibility in low light conditions
- Comes with Rib Set
- All roll-up signs are reflective vinyl
- Optional: Order the roll-up sign stand to complete your set-up!

| Part No. | Description |
|----------|---------------------------------------|
