POLYDOME MARKERS & ACCESSORIES

Get 360° visibility with ACP's PolyDome™ Markers!

Identify your network with PolyDomes from ACP International. ACP offers PolyDomes in 6 ft, 7 ft and 8 ft standard lengths with multiple post and dome color options. PolyDome markers feature an integral anchor, which means you'll never worry about a separate anchor piece getting lost. Both the PolyDome marker and post is made from durable UV-treated high-density polyethylene insuring printed materials will not peel for the life of the marker. PolyDome markers and posts have a guaranteed outdoor life of 10 years.

Need something specific? Longer lengths are available upon the customer's request. As with most of our products, we can also do custom imprinting on the PolyDome marker.

Domes available in: Orange, Yellow, White, Red, or Blue.

Posts available in: White, Orange, or Yellow.

Part No.	Description
PD-6	6' PolyDome
