PolyDome Markers provide 360° visibility to identify fiber optic cables, electric cables, natural gas pipelines, petroleum pipelines, water lines, sewer lines and additional buried infrastructure.

PolyDome™ Markers are made from High Density Polyethylene (HDPE) bolstered with UV inhibitors. PolyDome™ Markers are printed with UV stable enamel inks. The printed materials will not peel or disbond for the life of the marker. The domed marker and post have a guaranteed outdoor life of 10 years. Conforms to many Department of Transportation (DOT) regulations.

Available in standard legends or customized markers with organization name, phone number and logos.
