Flexible Line Markers

Mark Your Underground Utilities with Flexible Line Markers from ACP International!

ACP's Flexible Line Markers are an economical solution for providing line-of-sight identification of underground cables and pipelines. The fiberglass composite, three-rib profile design optimizes stability and provides a protected message on both sides. The markers are grass-fire resistant and manufactured from quality UV-resistant materials. ACP offers standard print and post color options as well as custom options.

Easily install Flexible Line Markers with ACP's Power Driver. Part No. D-375
