REGIONS OF ITALY

PLACES TO NOTE:

→ **piemonte**

the northwest corner of italy is home to nebbiolo, the grape found in barolo and barbaresco, some of the most sought after bottles in the world. the foggy, cooler climate creates just the right environment for this difficult to grow varietal, and the hillsides of clay and silt are the ideal soils for complex, powerful and ageworthy wines.

→ **friuli venezia giulia**

don't sleep on italian white wine! friuli has some of the best the country has to offer. ranging from the finesse of an elegant friulano to the intensity and structure of an aged ribolla gialla, there's lots to discover in this region where the dolomite mountains are the scenic backdrop.
